Dearest Mother and Bettye Jean,

A letter from mother with pictures of Bettye, Junior and others came to day. The pictures are exceptional good I suppose I think so because I was and am surprised how Bettye has grown. She is filling out also. I am glad she is for I was thinking that she would be tall and slim. She is nice looking, tell her I said so. Junior is a young man too. Bettye Jean has a cute face but that figure is nothing to look at.

A letter from Barbara came yesterday dated Jan. 2. She received the letter I wrote telling about the article in the newsweek. You know the one Bah sent you. Well, she finds the magazine and article but she didn't read the paragraph that I wanted her to read. She wrote you a letter concerning the subject. Don't let her mislead you for I have never been there and I am still where Bah told you. I suppose I will stay here for several more months.

I also got letter from Mrs. Emerson dated Jan. 2. She didn't have much to say. Just, that she wanted to start the year by writing two boys that she loves. She can hardly wait until we get back there so she can show us how much she does love us. I think or I should know that we have letter from her still in the mail written on or before Dec. 15. Why? Because she wrote Ray on that date and told him about selling our car for \$300. If she did you will get the \$300 for our bank account.

Extra - Bob read the letter Ray got. Mrs. Emerson addressed it. It was suppose to be for Bob and because he could tell by the contents. Of course Bob didn't say anything about it.

To. morrow is wash day. I hope to do a better job than we have done hither too. I think I depend too much on what boiling does for the clothes.

Good night my darlings, I will be with you again soon. Give my regards to all.

Love and kisses your boys  
Bob & Brock

Back to the pictures - Bettye Jean looks like Ava. Now send me one that looks like Bettye Jean. Don't get me wrong - those are good pictures but the ones of you are not like the other ones you sent.

Two lessons of my course were returned to me. They were the first and fourth. I made an hundred on each. They sent me four more lessons. I have completed three of them. I will finish the fourth soon. I can work this one in two or three hours when I get ready. I ask for the next four lessons. I hope I get them soon. If the school would keep me busy I could finish the course in short order. I would like to finish the course before I get back to the states. For when I get there I want have time to study a correspondence course.

Ray came in with canned chicken, bread, and fruit cake-tail. I think all of us ate too much. It was good any way. This should be done more often.

I got a xmas card from Mrs. Catherin this morning

Two money orders  
enclosed \$1.00 + \$1.30

Dear Mom and All,

I know you are mad for not hearing from me before now but I just couldn't get around to it. The time passes so fast I can't keep up with it. It seems only yesterday that I wrote you but got to checking as to when I wrote the last one and its been a week. I still have nothing interesting to write about, nothing ever happens around here. The incomming mail is not so bad; except for times but most of it gets here in about 15 days. It seems that Brock gets his mail quicker than I do for some reason or other so from now on you can send all of our mail to him.

Too bad about the fruit cakes burning, boy how I would like to get in one of them. I hope you have better luck with the other one. We have had alkinds of candy here since Xmas but its nothing like a good old fruit cake! with a nice cold glass of milk. I bet the turkey was really good when you got through with it. We had extra good turkey this time and I did enjoy it. You sure got a bargain when you bought yours.

It seems that your business is picking up. I hope you got a nother lady to work with your for ten hours is intirely too long. I didn't like the idea at first but if you like it and satisfied with the job its perfectly all right with me.

Too bad about B. J. solo, I know she must have been dissapointed after buying the new dress and everything. Maybe she will get a change to do it again. She must be pretty good, huh. I got a letter from her the other day telling me all about it and her new dress.

I wish you hadn't written the letter about the allotment. It want help a bit and I know why you hadn't recieved it. You should know me well enough to know that I wasn't going to let nothing happen to mymoney. The reason for it is that the application was late getting in. I had already checked on it long time ago; fact is the application asking for the allotment and the one discontinueing it went in at the same time and that was when I made Staff. So please don't worry about it and don't write anymore letters with out letting me <sup>know</sup> for I know all the ropes and etc, OK? He should be able to rush it up a little tho.

Glad to hear that you are wearing ashoe again. You foot must have been in pretty bad condition. Brock got a letter from Barbara yesterday saying Mrs Wall had fallen down the stairs and hurting her head very bed. I think she is in the hospital now. I will have to write her a letter soon as possible.

Brock got a letter from Ava today with the pictures I sent to have developed. I wonder why yours don't come out that good! Maybe you need more pratic, huh. By the way the home and the couple is Mr and Mrs Greggs, swell people. No news so will get some shut eye. Good by angle and remember I love you.

Dear Mother & B.

To day is my day day to write letters. When I finish I should have six to mail. I am glad I am no one that has to read what I write too. I received several wonderful letters this week. Letters from you, Eva, Maxine, Emerson, Cady, & Nell. All of the pictures that were sent out came in these letters. I received forty pictures from New Zealand also that I sent there to be printed. I have one album full. I will fill Babs' now and still have pictures left for another.

Time passes on - I am still here. But I know it won't be for as long as it has been. Five or six more months of this and I will be somewhere else; maybe at home and again maybe further from home.

Babs is working again. For the pass two weeks he didn't do a thing. I think he has enough to keep him busy for a couple days now.

My work is the same only I have to go farther to work. The work is easy and interesting; therefore I like it and the time spent there is not missed. It seems that I spend more time at the mess hall than any where else.

I would send some of my pictures home but I don't want to take the chance of losing any. But to it will be more fun to explain them to you at the same time. That is why I am keeping them. You saw enough in the pictures I sent to have an idea what the place is like. The one with me in bathing suit was taken at Canby, I was taking a swim bath. The picture of man and woman is Mr. & Mrs. Clyde Grieg. The house is theirs. I took them two days before I left Lakar. Bob has a dozen rolls of film and Ray has a dozen. I think I have five rolls left. If every roll is taken we will have all kinds of pictures.

I washed to Ray. I forgot about my shirt until I had my dark clothes in the pot. I washed twelve towels, five suits of underwear, 12 pair socks four pair of ~~shorts~~ coveralls and a uniform then my shirt.

I will see you again soon. Good luck to you darlings. Don't worry about us. we have plenty. Take care of your self and be ready to meet us soon.

Love

My dear Mrs. Thornhill,

Mother was so pleased and happy to receive your beautiful card and handkerchief and she wants me to tell you for her how sweet it was of you and how very much she appreciates it. Mother loves handkerchiefs and she has been showing it and the lovely card with the flowers to all her nurses.

We don't know, yet, just when Mother will be coming home. She is getting along fine but it is slow. She sits up in the chair for two hours each day and is more than ready to get back to bed again. Naturally

-2-  
Barbara

she is weak and her head still hurts. The unfortunate thing is having that broken cartilage in her knee, but I guess that the doctors will do what is best.

No word from the boys since December 8<sup>th</sup>. I know that Brock must have written but the mail is just slow now. They announced over the radio, and informed us in the newspapers that no packages, magazines, or airmail letters will be accepted for the boys down south unless approved by their Commanding officer. In other words, we are hereafter to send letters by convoy and that will take way over a month! I am very disappointed, but it must be. I am going

Barbara

to write to Brock tonight and explain. I realize, of course, that the Post Office is flooded with mail and can't handle all airmail, but it is a shame for the boys overseas for they look forward to mail and now it will be slow. Mother had some new magazines to send to the boys and I was just about to send them off when this restriction came along.

Please tell Ava that I took her letters and snapshots of the children down to Mother to read again, for when they first came, Mother was more or less "out" and couldn't remember everything. She enjoyed them very much. How we

Barbara

should all love to see little Robert Brock. Of course we should love to see Sue also, for she is at a darling age just now.

I just remembered that Mother wanted me to tell you that she was sending a "Paradise of the Pacific" to you with a card inside. If you will please excuse the tardiness, I'll try to get it off to you soon.

How is Bettye Jean?

Many thanks to you for your sweet thoughtfulness.

With much love,

Barbara

Dear Mrs. Thornhill,

I think Mrs. Emerson has written you so you know who the Emersons are and how we have enjoyed knowing your two fine boys, Bob and Brock. No doubt Brock wrote you about leaving his car with us when he left for the South a couple of months ago. It was very kind of him to let us use it while he was getting the ownership papers fixed up but when they finally arrived we sold it for him. The last payment was received a week or so ago and I am herewith sending the proceeds and final papers to you. He asked that you ~~you~~ hold the money for him, ~~as~~ he could have not much use for it in the jungles.

Both boys are very good letter writers and we all get a big kick out of the mail we get from them. Mrs. Emerson is the chief correspondent of our family and sometimes she isn't too good due to her many cares and responsibilities that seem to be the order of the day during these trying times we are going thru. Right now all the news seems to be good news and let's hope it continues to be. The Churchill and Roosevelt stand for an unconditional surrender may be more costly for the present but it should be better from the long range point of view.

We have a couple of foot lockers and odds and ends belonging to the boys stored in our attic and will try to take good care of them until they get back into circulation. The whole family is looking forward to seeing Brock and Bob's cheerful faces drop in again. They have always been more than welcome and always will be. Best wishes to you and yours.

Yours truly

Dearest Mother & B.J.

The Tomas package came yesterday.  
The candy sure is good. The gum was  
the best idea though. we get candy  
all the time but no gum and I do  
like to chew gum. I am glad you  
sent hard candy. If it had been  
soft it would have spoiled in  
the length of time.

I will be off the line for one  
week beginning to day. There is a  
special job to be done that men  
are assigned to for one week at  
a time. I will be in charge. There

has to be a truck driver so I will  
probably be the driver. Driving a  
truck will be more interesting than  
the other work.

I don't boil my dark clothes  
any more. I take them in  
gasoline over night and hang them  
out to dry and air. Sometimes  
it rains and rinses the clothes on  
the line.  
Evelyn got letter from Nelda today. She is  
to be married soon. All of us got a  
big laugh. Remember how he laughed  
at me when Grace married.

My dearest boys:

Just a note before the postman comes. Should have written you last night but Hobson and I drove from Jackson or Tena in a storm. And I was whipped down when we got here. First the wind blew and we found the car making 65. No fault of the driver of course, just the wind. The rain came at Hazlehurst and such a rain I've never seen. We had to stop several times because we couldn't see a thing. A good bit of ice was mixed in with the rain. The general all over the state killing blinding down a number of roads so we were lucky to make it home safe. I got out the car on the curb and ran for the porch and got so wet I had to change clothes. It was pouring.

We took Mamma home. She just had to go after her two weeks stay. I don't think she will want to come back in couple of weeks if she's able. Break her heart she is going down so fast. I'm so glad

you got to see her when you did. I'm  
afraid she want make many <sup>more</sup> trips back  
and forth.

I want try to tell you about Jepa's wedding  
but will enclose one of Bellie's letter and  
you'll know it all. If he's even half as  
good as she pictures him Jepa. is still  
lucky. I do hope every thing will be good  
for her for she had a lot of unhappiness.

The month of March has been different from  
any I remember - no cold and very  
little wind except Sun. night. Even fig trees  
or full grown and pecans or putting out.  
As it stands there should be plenty of fruit  
~~but~~ they will at least have figs, pears  
huckleberries and black berries. Straw berries  
- box and I certainly don't think  
it's that good.

So - I don't understand about our allot-  
ment checks. I can't find any one else that  
had to wait so long. Dora and Richard  
thurs got theirs in a month. Holson thinks  
I should go to the Red Cross and ask them  
to try and get it started for me. Certainly  
would make a difference in my peace of  
mind if it would come on. Since it  
been so long. I can't feel sure. You know

You made application about three weeks  
after Major and Awi came in Dec. If  
I don't hear from them by the first. I'll  
see about borrowing the money to come  
see you on. I really think if you would  
write them it would help more than the Red  
Cross. Tell them how much we need the  
funds etc.

I'm still sewing and am so tired of  
it. Expect to devote next week to making some-  
thing for my self and I hate sewing for  
my self more than any thing I know. Have  
Emie and Betty. Washoe looking much better.

Almost time for postman. I've  
have to start sending your letters by  
regular mail since the increase of post-  
age. It stands nine cents a letter.

Love to darlings and see you again

I love you

The \$100.00 money order came to day. Wise put it in the bank and add to it as you send more money so it will be ready to draw out when you want it. She handled more money in the last three weeks than ever. Checks for both last. Your check from the 7th - went and what time taken in and paid out. But your <sup>about</sup> check came to day. The pay \$210.00. Betty Jean's name wasn't on it so guess she will get a cash rate check. I knew we should get it and I wanted it for every body else is getting it. Here hasn't been a savings but about 4 months and then got a \$50.00 check this month - 2 pay her \$20.00 for a good long loan and she makes \$15.31 in month. What I mean? I still owe Hobson, for car and refrigerator so am going to make him take care of this check. Dips. offered him some at different times but he said I don't need it. He is so sweet. Say that started so well now 1 month.

Hello Darlings,

I do feel so much better today. I got a letter from each of you Sat. and yesterday, three from Brock and one from Bob today. I do believe my boys will be coming home before long. Bob, I'm so happy over the hopes of your return to Mrs. Cady. I took a big cry over Brock being left behind. That's as we should expect for you entered the jungles two months ahead. Darling I hope you will soon follow and then come home together. I feel that this will come true not too far in the future. It must, others are coming home every week.

The \$100 money order came today. Will put it in the bank and add to it as you send more home so it will be ready to draw out when you want it. I've handled more money in the last three weeks than ever. Checks for both cars, your checks from the government and what I've taken in and paid out. Bob your check came today. It's for \$210. Betty Jean's name wasn't on it so I guess she will get a separate check. I knew we should get it and I wanted it for everyone else is getting it. Gene hasn't been in service but about 4 months and Otesa got a \$50 check this month. I pay her \$20 her board and laundry and she makes \$115 a month. See what I mean. I still owe Hobson for car and refrigerator so I am going to make him take some out of this check. I've offered him some at different times but he says "I don't need it". He is so sweet. I've first started so I will look for more V-mail.

I love you, Mother

Dear Mather & B.J.

13 March 1943

I am a little late getting this off but since my arrival I have been so busy and excited over the whole thing I just didn't get around to it. I sent a telegram the day I arrived so guess you received it. I won't attempt to say how happy I am to be back for it is almost impossible. It runs almost like a dream to be sleeping on a bed again with sheets and one getting plenty to eat also. Since we arrived I have been eating these stops daily with all the ice cream, milk, sugar and what have you. we have had call of the But garden every day so I have had my share of it too. we are having a ball in it this afternoon for the boys and so haven't had a chance to go to town or yet. I think we get passed to morrow and you can imagine how I am looking forward to getting in town.

we had a pretty good trip back months we almost starved. we had to weather rough days but didn't get sea sick. I am looking forward to the one to the States which shouldn't be too long off. we'll be glad to see you back here or a chance back there.

I received a couple of your letters with the new APO the day I arrived. It seems the regular letters come though just as fast as the V. mail so why not write them. I got one from B.J. this morning and it came just as fast. I have so down many to write I hardly know where to start. I am working today and night so will try to get a few of them. I know you are mad as the devil at me but you know how it is. I know all the friends and all are well.

Glad to hear you have the tires and maybe I will get to use them a little. I like the bank account sounds good to me. I think we get paid today so will be sending you with some more later.

Love Bat

Dear Mother and B.J.

I am a little late getting this off but since my arrival I have been so busy and excited over the whole thing. I just didn't get around to it. I sent a telegram the day I arrived so guess you received it. I won't attempt to say how happy I am to be back for it is almost impossible. It seems almost like a dream to be sleeping on a bed again with sheets. We are getting plenty to eat also. Since we arrived I have been eating two [unreadable] daily with all the ice cream, milk shakes and what have you. We have roll call at the beer garden every day so I have had my share of it too. We are having a beer bust this afternoon for the boys and expecting a big time. We have been quarantined since we arrived so hadn't had a chance to go to town yet. I think we get passes tomorrow and you can imagine how I am looking forward to getting in town.

We had a pretty good trip back even though we almost starved. We had two or three rough days but didn't get sea sick. I am looking forward to [unreadable] to the station which shouldn't be too long off. We had a choice of [two lines cut out by censor]

I received a couple of your letters with the new APO the day I arrived. It seems the regular letter comes through just as fast as the V.mail so why not write them. I got one from B.J. this morning and it came just as fast. I have so darn many to write I hardly know where to start. I am working today and night so will try to get a few of them. I know Ava is mad as the devil at me but you know how it is. I saw all the friends and all is well.

Glad to hear you have the tires and maybe I will get to use them a little. I like the bank account, sounds good to me. I think we get paid today so will be sending more. Will write more later.

Love, Bob

My Dear Boys. This is good old St Patrick Day, and I wonder what the old boy would think if he could look in for pin-stains on his shirt.

Change from his world at war.

I had a birthday and it was a good one too, got so many nice things, and had a pleasant day.

I have been working at the Canteen to day and my dog do hurt, but I am happy to be able to work.

John was up this week end, he has been out in the woods for three weeks and it was cold too, but he looks well, he will be leaving Shelby soon. Well so long for to night be seeing you soon

Good morning darling. I went to work this morning. I was assigned Gen Chief 9-054, one of our planes. It's not here now - that's why I am back at my tent. I have read two stories this morning, both war stories. I am resting while I write you. I don't know why but I don't like to read more than two stories at a time. I get tired and restless and can't get comfortable. That's why I read awhile then write and then just talk to the boys.

The sun is out bright and hot this morning. Maybe my clothes will dry. They probably won't smell any too good but they won't be dirty. I dried my sheet inside of tent yesterday and used it last night. I put the top sheet on bottom and this one on top. Three sheets see. That way I wash only one at a time.

Your V. mail letter of February 22 came yesterday. Also one from Eva and one from Aunt Dora. I wrote both of them last night. I try to write them often but I fail at times. Good day forever -  
Love my love to

My dearest boys: A letter came from Bob, to day  
Written the 5th of this month. He said he expected to  
see Mrs. Lady with in a month. which means his son  
his surgeon about to sail. We be so relieved when he  
lands again. I hope his return trip will be as  
pleasant as when he went over. How do you  
want to come back - like you went on by boat.  
John and his girl friend came over this week  
and Mr. Rogers and the children came down here  
with them yesterday for dinner. I had two boys  
from Camp Van Dorn also. I had fried Chicken  
meyer of ice cream and a lot of good things to let  
every body seemed to enjoy the day very much.  
The boys from Van Dorn were the most grateful  
boys ever seen. They are coming back soon John  
and the next week for two weeks of maneuvers in  
Ia. They will not come back to Camp Shelby, and  
he is already worrying about where he might be sent.  
He has been lucky but I wouldn't doubt but that he  
will be sent across when the maneuvers are  
over.  
I got a letter from Mrs. Lady yesterday. Said  
she had a Japanese friend at Camp Shelby who  
worked for Mrs. Lady until he enlisted. His name  
is Sgt. Jack Murata but she didn't give me his  
full address. John took his name and said he  
felt sure he could find him. I'd love to have  
him come over for the week end but  
don't he get to come. Love

My dearest boys,

A letter came from Bob today written the 5<sup>th</sup> of this month. Still said he expected to see Mrs.. Cady within a month which means he is on his way or about to sail. I'll be so relieved when he lands again. I hope his return trip will be as pleasant as when he went over. Brock, how do you want to come back – how you went or by boat.

John and his girlfriend came over this week and Ava, Major, and the children came down here with them for dinner. I had two boys from Camp Van Dorn also. I had fried chicken, freezer of ice cream and a lot of good things to eat. They are coming back soon. John leaves next week for two weeks of maneuvers in LA. They will not come back to Camp Shelby and he is already worrying about where he might be sent. He's been lucky but I wouldn't doubt but that he will be sent across when maneuvers are over.

I got a letter from Mrs. Cady yesterday. Said she had a Japanese friend at Camp Shelby that worked for Mr. Cady before he enlisted. His name is Sergeant Jack Murata but she didn't give me his full address. John took his name and said he felt sure he could find him. I'd love to have him come over for the weekend but doubt he gets to come.

(from new page) Hello, I believe I was talking Sgt. Murata. The reason John thought he wouldn't get to come over is that they are leaving the same time for maneuvers. I sure would love to see and talk with him.

I saw in the paper where Jerome Johnson is home. Thought he might come to see us but he hasn't. Don't know how long he will be home. See, I tell you everyone else comes home.

Oh yes, Mrs. Byrd has been notified by the government that both of her boys – Malcolm and Marshall – are prisoners of war. Maybe [unreadable] name will come out next. Remember they were reported missing in October after the fall of the Phillipines and this is the first she has heard since.

Bob said you expected to make Staff soon. I'm so proud for you. He also said you would lose a few dollars on it for my allotment would stop. I still say you are wrong about that. They sent me affidavit blanks to fill out for Bob and it had Staff Sergeant on the letter they wrote me. Since then I got the check for his. The checks are for \$37, not \$50. Wives get \$50 and mothers get only \$37. So you can see the government only pays me \$15. Mrs. Rash's husband is top sergeant and he gets a government check every month.

Sue and Robert Brock have awful colds. I've been up helping doctor them today. Both were much better tonight. First time our babies have been sick.

I love you darlings, M

Hello - I decided I would continue this for another page. You ask about what I would like you to do about I will just keep using it for it comes quick and I notice you don't use. Stamp: About half of them come just as you write them and I like that fine. The main thing here is hoping from you. Please let me often for if I fail to hear from you I don't know what I'll do since you are alone.

We are having our revival this week. I haven't been able to attend as the service but have enjoyed those I did very much. The Minister of Mrs Comb is doing the preaching. Our pastor is a good singer and leader so with her good singing. The lady came down to night and she said it had been a long time since she had heard such good music.

SOT. Look here here to morrow and I'm very anxious to see it for every body says it's grand. I've been here twice and I missed it so I will see it but I wish to see it. Saw it in flight last week and think it's fine.

The quartet sang a night and I thought our baby did fine. I'm making her a white dress to morrow to wear in the Easter program Sun. The New Club and quartet are going to give a program at church Sun. Will be Robert Brooks just Easter. She seems a little excited for her. She never gets all in the air over any thing. Very little candy and other things for Easter and you may hear for the little things in my same way.

Just when I decide to use nothing but V-mail I get a letter from you saying you don't like it. That it takes all the feeling out of the meaning of a letter. I have discovered I can let you hear from us more often via V-mail than by regular mail. I searched for this discovery because you like to hear from us often. If you would rather I write the other method I will do so. Let me know by return mail. Until then I will use this type.

I saw Bruce Hanson in "Random Harvest" last night. It was a good picture. Bob saw it for the second time. The major and the minor is on the island. I hope to see it before it leaves here.

The letter of February 26 from you came yesterday. It was a V-mail but that is a letter now. I am used to them. If you can't get us to them I will use air mail.

The electrical problems that I have to work are stiff too. They are about Series, Parallel and Series Parallel Circuits. If I master them I will be a genius. I will continue to study them even though I don't get the full meaning.

The food is good. Climate is not too bad. We are under worked - plenty of time to read, write and sleep. Continue to be happy mother dear. We will do the same. We didn't ask for this but we have to go to it.

How are my lovely ones today. The twins are in the pink. We are in the best of health. I think the hot cakes for breakfast has something to do with it. I didn't eat but three with plenty of butter and syrup.

The show I saw last night, "Life begins at Eight-thirty" was played by Monte Woody and Ida Lupino. He played his part well so did she — I did more liking than listening when she was on the screen. She looks like I think all women should look. No matter what angle you look from she is lovely. There are not many movie actresses in her class.

A letter that I wrote Mame in January came back to me yesterday. She hasn't moved do you think. I will think with letter but got a couple days ago.

A long sweet letter from Mrs. Cady came yesterday. She spoke like Cochran government will return to Honolulu soon. I couldn't tell the difference in the way each govern while I was there.

What do you think of this. Dr. Young, eminent surgeon, attended the ceremony of a bust of him self at a university. After the ceremonies a young woman came up to him. "I hope you appreciate," she said, "that I have come 30 miles to see you, just because." Whereupon, with a bow, Dr. Young replied "I would go a thousand to see yours."

Dearest Aunt Bess:

Now look here young lady just because your daughter has started to write me again thats no sign that you can stop. I haven't had a letter from you in months, oh yes I know you are busy but darn it so am I.

Ava sent me some pictures, guess you knew about it, and did I appreciate them. That Sue Carol is about the prettiest thing I have ever laid my two peepers on, honest I could have just hugged her. I bet Robert Brock is a darling to, he looks like Major and Sue Carol looks like Ava and him. Anyway what I am trying to say is that are both darlings.

Gosh Betty Jean has really grown, doesn't seem possible. What a good looking girl she has made, mother always said she was going to make a beautiful girl. I got to thinking about the time when she and I went fishing down at the cove, when I was looking at the pictures, and honest I had the best laugh you ever saw all to myself. Ask her if she still remembers us falling down the embankment and having so much fun.

Haven't heard from aunt Nora in quite awhile, said she wasn't feeling any too well the last time she wrote. I wrote her a long letter about three weeks ago and thought sure I would get an answer by now. Somehow my letters haven't been getting to her for she said she hadn't heard from me in about five months only a Xmas card.

We are having some beautiful weather up here now and hoping it will continue. I wrote the boys yesterday a two page letter and told me all the news I could possibly get hold of, and of course a lot of foolishness along with it.

Dell's sheep have begun to lamb now, the first came last night a pair of twins and they are the cutest things, black as the ace of spades. One of his sows had 11 pigs last week, so looks like the Hammond's have gone into having things, all but me.

Am expecting Jep tomorrow at 4:00 P.M. and will I be glad to see her. She spent the week with Dell's sister down in Hawthorn, N.J. They called me Sunday night and said she wouldn't be up until tomorrow for Pat had planned a lot of things for them to do. That gal sure has a good time and doesn't know it.

By the way while I think of it. Do you think it would be possible to get me a bushel of sweet ~~potatoes~~ potatoes and send me, could send them by freight or express, which ever you wanted to do but let me know ahead so I can send you the money in advance. Also if you have some pecans I would love to have some as it is almost impossible to get them up here and when you do you have to pay six prices for them. Let me know if you can do this for me honey.

Ava wrote me she had most of her garden planted. Boy it is hard to imagine for it will be a month at least before we dare plant anything.

Don't guess I know any more today but thought I would at least drop you a line and let you know things are going with the Hammond's.

Let me hear from you darling and know I love you dearly and will try to do better about writing. Tell Betty Jean I would love to hear from my cousin "Bettsy" some time.

Lovingly,

Maxine

Dearest Mother and S. J.

I have no V. mail so I will write you a  
real letter. From what you told me about the mail  
I think you will enjoy writing mail letter. So much  
has happened in the past time that I don't know where to begin telling you. First  
of all it was a good night for a short sleep. I  
we took advantage of each by saying the story  
of Charles. It wasn't what I would like to see  
but it served as a good time. It was a nice  
story.

I returned home washed my feet and went to  
bed. Even if I take a shower I have to wash  
my feet again before going to bed for my shoes  
are dirty or muddy or sandy in side. You see I  
don't want to soil my sheets.

I slept well. I had a dream but I don't recall  
it at the present. When I got up this morning  
at five o'clock to see my ship off the sky was  
clear. After breakfast the sun came up. It has  
been out all day.

The sun shined just enough to dry clothes  
so I washed this morning. I hope to take in  
my white clothes to night. I will leave the dark  
ones out until to morrow.

There wasn't any work for me to do so I  
helped Brock buy change & took place on his  
plane. we checked them - they are ok.

Another laugh for you - It goes as follows -

"I want offer you a basket Mr. Brown." said  
the hostess, since you are head of the Insurance League.

"No, I am president of the Anti Vice League."

"Oh. Well, I know there was something I should  
offer you."

How are you girls and the other girls children?  
I would ask about you but I know you are  
feeling young and gay and as happy as can be  
with the present condition.

Did you see in the paper where 'meanly' it  
has been bombed for the 48th time this month.  
If such is continued there should be no wonder  
you're soon.

Give my love to all. I will see you again  
soon. Love & Kisses

I have no V.mail so I will write you a real letter. From what you told me about V.mail I think you will enjoy an air mail letter. So much has happened in the pass twenty four hours that I don't know where to begin telling you. First of all it was a good night for a show last night. We took advantage of such by seeing "The Street of Chance". It wasn't what I would like to see but it serves as a good pass time. It was a murder story.

I returned home, washed my feet and went to bed. Even if I take a shower I have to wash my feet again before going to bed for my shoes are dirty or muddy or sandy inside. You see I don't want to soil my sheets.

I slept well. I had a dream but I don't recall it at the present. When I got up this morning at five o'clock to see my ship off the sky was clear. After breakfast the sun came up. It has been out all day.

The sunshine felt warm enough to dry clothes so I washed this morning. I hope to take in my white clothes tonight. I will have the dark ones out until tomorrow.

There wasn't any work for me to do so I helped another boy change spark plugs on his plane. We checked them-they are ok.

Another laugh for you-It hoes as follows-"I won't offer you a cocktail, Mr. Brown", said the hostess, "since you are head of the Temperance League"

"No, I am president of the Anti-Vice league"

"Oh well, I knew there was something I should not offer you.

How are you girls and the elder girls children? I would ask about you but I know you are feeling young and gay and as happy as can be with the present condition.

Did you see in the paper where Munola Point has been bombed for the 98<sup>th</sup> time this month. If such is continued there should be no Munola Point soon.

Give my love to all. I well see you again soon. Love and kisses

Hello Son, (Brock)

I must mention the weather for we have had such bad weather for days. Yesterday and today is what you would call ideal. I'm expecting a negro to help in my garden tomorrow and hope the sun continues to shine. Feel sure it will for the sky is a solid sheet of blue.

Just read the chapter you asked me to give my viewpoint on – I Corinthians 7<sup>th</sup> verse. First I think that Paul meant this mostly to preachers and other [unreadable] leaders. Meaning that one could do better work for the Lord if not if not burdened with the care and responsibilities of a wife and family. However he says if one should feel the desire for the privileges of marriage it is best that they marry. And too you notice that Paul did speak this by permission and not by commandment. Paul wasn't married and didn't have the desire for the evil things so he had a right to think others to be like him. I think this could be the chapter where the Catholics get their belief of Priesthood and Sisterhood. We've already been told that [unreadable] should avoid fornication that each should have their own husbands and wife and be faithful to each other. I want my boys to marry some sweet clean girls and be just as sweet and clean as they expect their wife. If you do this you can bring glory to yourselves and to God.

Well, [unreadable] another letter from Bob dated the 22<sup>nd</sup> and mailed the 23<sup>rd</sup>. Don't they service for you? Said you had made Staff and seemed so happy over it. Said you just hadn't got the good marks that he had. [unreadable]

Hello Bessie, just a few words to let you know your sons are well, happy, and thinking of you. Bob didn't get to write you the letter I spoke of; he was called out on business. Now that I write you more often he writes less. I see his faint in a way but you don't for you like to see his signature. If you will be patient he will get in the habit of writing just as I do.

I saw Gene today in "Victory Ranch" last night so tonight I saw "The March of America" and "Army Surgeon". Both sound as good as new.

Yesterday and the day were filled with honest labor for we checked all valves (72), changed forty-five spark plugs, and made a fifty-hour inspection. It usually takes four days for this job was completed by my crew and I in two days.

I received a wonderful letter from Mrs. Emerson to-day. She is a swell writer. Sarah enjoys her letters she and Mrs. Cady write similar letters.

I heard from Barbara also but her letter was dry as usual. I was hesitant to answer her letters for I don't like to re-read them. I write her occasionally though to let her know I haven't forgotten the family.

I will be with you again soon. Give me a good night kiss and a sweet dream of you. Give my love to the family & friends.

Dearest Brock.

My letters seem to be somewhat stogy in the sandwich way. Every day is so much the same & thus I know what to write. Major & Sue are still gone

Betty more was out yesterday shopping. She's sure making a cute kid. They're building more to their house & painting it. They have higher water also. She said Aunt Mattie did do was married again aint that something? Now you have a step-ma I just hope the miss comes back here did you?

My boy Joe Letter. His 100% boy. What I'd give for you  
+ Bob to see him now. He's a man. I taught him a suit &  
letter white cap. Think you'll be here to help me celebrate  
his 1st birthday.

John is on Melancon now & thinks he won't be at Shelby any more in fact all hope from there think they're on their way over. He's eating stuff now. He's quite a thick even in a uniform. He still manages a good unit with an automobile. I can't say I thought much of that one to tell the truth. This is a set.

Ray will be back in few weeks. Melba sure looks good.

"I sold baby's buggy & got me a stroller. I also baby for you can't get new ones anymore. This one looks nice to be second hand tho'. I also have him a new chair that's awfully cute.

must get to my house work but I wanted to get a note  
off to you first. I waste this & sipped my coffee. I'd like  
a sweet letter from you. always yours, Ava

Dearest Brock,

My letters seem to be same ole story in the same ole way. Every day is much the same and never know what to write. Major and Sue are still gone.

Betty Marie was out yesterday shopping. She's sure making a cute girl. There building more to chain house & painting it. They have lights and water also. She said Aunt Mattie and dad was married again. Ain't that something? Now you have a step ma. I just hope he never comes back here. Don't you?

My boy is a cutter. He is 100% boy. Oh what I'd give for you and Bob to see him now. He's a mess. I brought him a suit and a little white cap. Think you'll be her to help me celebrate his first birthday

John is on maneuvers now and & thinks he won't be at Shelby anymore in fact all boys from there think they are on their way over. He's rating staff now. He's quite a [unreadable] even in uniform. He still manages a gal with an automobile. I can't say I thought much of last one he had tho'. She's east.

Ray will be uncle in few weeks. Melba sure looks good.

I sold baby's buggy and got me a stroller. It was lucky for you can't get new ones anymore. This one looks nice to be second hand tho'. I also have him a sun chair that's awfully cute.

Must get to my housework but I wanted to get a note off to you first. I wrote this and sipped my coffee. I'd like a sweet letter from you.

My Darling. Your Mother is still a very busy woman  
 running the and I. I'm feeling 2 people. Thought saying  
 chickens and farming. I planted my garden here and on the  
 half of the big garden at the place last week. Got the light  
 behind my garden planted but don't plant before 1 of 5 my  
 have been using it for a pasture so it will have to  
 be plowed again and conditioned before planting  
 I was born out this night so went to Johnson for the truck  
 and expected to not but Mamma and Lina could wheel  
 out on them. I. so Lina and I did the cooking. Had I with  
 you mamma look good and Lina is best so I don't mind  
 about them.

I'm going to start dressing my chickens to put in my  
 locker in the cold storage plant. Have 50 left but think  
 all save 6 or 8 nice pullets. Was lucky enough to get a  
 call by poultry wire so can enlarge my hen yard. I had  
 14 hens but want to add another 10.  
 Bobi Cable, Camp Sum. right just before I reached here  
 was so glad to get it and hope it won't be long be-  
 fore I get one from you from there. As a gift a  
 new Barbara. Just say. saying they were making  
 a gift for Bobi return. Think that one she was

Nothing it was for the two of you, and hoping  
 you would soon follow. She had just made a  
 letter from you and seemed rather elated that you  
 were still young. Commanding to find about whether it  
 not there. A chance to go. returning to the states soon.  
 I have a new many old returned - after a year and more  
 and I am very happy to hear from you and hope  
 you are well and happy.

My Darling, (Brock)

Your mother is still a very busy woman counting Betty and I I'm feeding 22 people besides raising chickens and farming. I planted my garden here and over half of the big garden at the place last week. Got the big lot behind my garden plowed but won't plant before the first of May. Have been using it for a pasture so it will have to be plowed [unreadable] and conditioned before planting. I was worn out Friday night so I went to Jackson for the weekend. Expected to rest but mama and Lena cook walked out on them Friday so Lena and I did the cooking. Glad I went there mama looks good and Lena is better so I am not worried about them.

I'm going to start dressing my chickens to put in my locker in the cold storage plant. Have 50 left but I think I'll save 6 or 8 nice pullets. Was lucky enough to get a roll of poultry wire so I can enlarge my hen yard. I have 14 hens but would like to add another dozen.

Bob's cable came Sun. night just before I reached home. Was so glad to get it and hope it won't be long before I get one from you from there. Ava got a letter from Barbara yesterday saying they were making big plans for Bob's return, and like me she was wishing it was for the two of you and hoping you would soon follow. She had just received a letter from you and seemed rather elated. Have you ever asked your commanding officer about whether or not there's a chance of your returning to the states soon. I hear of so many that returned after a year and more of service [damage and unreadable] Love you darling, mother

Dearest Darling,

The mail came through today.

One letter from Betty Jean one from Aunt  
Dora, one from Bea and five from Mother.  
These are dated from March 17 to March  
23. These letters should have come two  
weeks ago. Our mail came to day, mailed  
April 2. Luck has proved to me that  
no mail is a laugh.

Betty Jean you may purchase your  
own suit and without evening clothes  
+ the 8 day of missing in for me  
can going to spend the evening  
to at Uncle Buds, when I return.  
I assure you that your present the  
with me will not be a disgrace.

The only way to win a back ball  
game is to throw the ball through  
the ring. If you made  $3\frac{1}{2}$  you shot

You should rest all the time.

You were wrong about the date  
Zach sailed. He sailed one month  
later. He is now in the land of  
the living plenty happy no doubt. I  
am here alone and happy to be in good  
health.

You spoke of soldiers visiting the  
home. It is okay to visit once home  
if the heart or health knows what  
a soldier would like to do. I don't  
know how you entertained them but  
I do have a suggestion. What large  
is a for is female companion ship. If  
you have to come to your house for a  
evening or dinner by all means have  
a date for them and arrange for them  
to go out to a movie or for a few  
minutes at a night club. While you  
are selecting girls for your house party  
you may look around for a couple  
that I may be interested in.  
Betty Jean has some a 10. betwixt.

I would like to fly back but  
that is out. When we leave we will  
have no place till you have one  
to use. The most convenient party  
will be by transport; therefore, we  
will go by rail.

Get ~~him~~ <sup>only</sup> ~~him~~ <sup>him</sup> out of the company that  
will relieve our medical company.  
I hope he will be sent across the  
Atlantic instead of this no  
place for a while more.

Tell Mrs. Boyd that I will do  
all I can to get her some out of  
prison. I am glad they are prisoners  
and not corpses. They do have a chance  
of returning home.

You are wrong about the statement  
for I sign the paper but work for  
it to be discontinued; it is the  
government's idea. You want get  
government checks so you will have  
to take from our checks the amount  
you need.

The weather is no better yet in  
your town the monthly work. I  
do hope you will have a dry season  
for a change. I know what it is  
like to live in the rain. We  
have showers but get miserably  
wet.

Harold Spence and I had a coffee  
came over last night with a case  
of beer and a bucket of grass in  
the door to a place to live "Freedom  
my Darling". We stayed out late  
for Callie is leaving for Australia  
soon. If you see any of the girls  
tell them their boys are doing their  
part and are in good health.

I am sleepy so I will leave you  
now and give a kiss to my baby. I  
slept this afternoon but am  
still sleepy.

Love and best to you with  
a big good night kiss.

I would like to fly back but that is out. When we leave we will leave our planes here for someone else to use. The most convenient way will be by transport; therefore we will go by sea.

John, my cousin, may be part of the company that will relieve our medical company. I hope he will be sent across the Atlantic instead for this is no place for a white man.

Tell Mrs. Byrd that I will do all I can to get her sons out of prison. I am glad they are prisoners and not corpses. The do have a chance of returning home.

Dear Darling,

its a beautiful day. I am well  
I am happy I am thinking of you.  
I don't want to write a letter - I  
only want you to know that I  
love you. If I did want to  
write a letter I couldn't for I  
am not in the mood. One  
thing that is noticeable now -  
day is Navy versus Army. The  
Navy leads 10 to 6 in the first  
round. The navy has six movies  
with a show every night. The  
Army has two movies with a  
show twice a week. The Navy

Navy personnel has an Area and  
the Army has an Area. We are stopped  
my M.P.' if we are caught tres-  
passing. Our transportation won't  
even let us have a truck to go to  
those movies. This place is getting  
so civilized for me. There is always  
something to interfere with pleasure.

My airplane is still giving me  
trouble. I have given it an over-  
haul and I still have trouble that  
I can't find. Maybe we will have  
better luck the next time.

Keep your skins up darling -  
this world will be peaceable  
again. I hope to see you soon.  
Remember that I love you deeply  
Love  
Bob

Hello Darlings,

It's a beautiful day. I am well. I am happy. I am thinking of you. I don't want to write a letter I only want you to know that I love you. If I did want to write a letter I couldn't for I am not in the mood. One thing that is noticeable now day is Navy vs Army. The Navy leads 10 to 0 in the first round. The Navy has six movies with a show every night. The army has two movies with a show twice a week. The Navy personnel has an area and the Army has an area. We are stopped my M.P.s if we are caught trespassing. Our transportation won't even let us have a truck to go to those movies. This place is getting to civilize for me. There is always something to interfere with pleasure.

My airplane is still giving me trouble. I have given it an overhaul and I still have trouble that I can't find. Mabey we will have better luck tomorrow.

Keep you chins up darlings. This world will be peaceable again. I hope to see you soon. Remember that I love you dearly.

Love

Brock

Dearest Brock:

well I got that long waitin for letter Saturday.  
you spoke as tho you hadn't heard from me for some  
time. They're on the way for sure certainly written.

Mother had letter from Bob. He seemed awfully  
happy over trip he took & thrilled over having reached  
his present destination. Have you heard from him?

We drove down to Camp yesterday eve. Its really  
beautiful there now. Aunt Nora wants to have  
family reunion there for you & Bob when you come  
home. Won't that be swell? Hope it won't be too far  
away. How about on your birthday? Think you'll  
make it by then?? What you'd say I'm willing.

Keep up your good work in your technical course  
your big brother is really proud of you. You know  
thats his life he has lots of "Electrical worlds"  
for you to read & study. He has lots of books & magazines  
you'll enjoy.

We went out Saturday night. First time in couple months  
went to Kithwood's supper then to "Ole Rock Cabin".  
We really had fun. Then Major had to go out to work  
right after we got home (8 A.M.) & worked till 3 P.M.  
yesterday eve. He was really tired.

Robert Brock is a mess now. He's really getting  
fancy now. He makes Sue Pope stop around.  
Will really have her on the go in couple months.  
I'm sure glad to see Danmer another father both.  
They both have to stay outside. In waiting this  
before cleaning my house up no speech I better  
get busy - write down. with all my love - Dad

Dearest Brook:

Here, I am beginning another day by getting a note off to you. In writing & sipping my coffee. All in one. Must admit my mind isn't functioning very well so pardon anything that doesn't make sense. In pretty stiff this morn'g for I began my house cleaning yesterday. Did all of house except my bedroom kitchen. Hope to finish them by Friday.

In trying to buy me a machine. I must save for this summer. Had made things are shy. I had long letter from Rich yesterday. In sure you had one by now. He really seems excited about the net? In looking forward to getting one from you something like that. Won't be long in here. Where is C. With you or do you know?

My husband left for theater to be gone till today. So such an awful chance to go & hate to see him back to leave home. No less home. Can't stay here.

In gonna give mother a permanent sometime this week. When they get a shop. Had to really come traveling to me. I could be working all time now. Three shops here begging for help but I don't have anyone to have kids with. Can't say in to anxious to anyway. I have my hands full right here. Keeping my home fire burning. Two kids, 6 room house with two rooms rented, yard & garden to care for. You see why I'm always going in circles. Must close & get this mailed. With all my love.

Wello Darling, I wonder how you are feeling tonight.  
Your letter of March 30th came to day. As you thought  
had heard from Bob, after his arrival at 952. When I  
arrived and happy and am happy for him. Some that  
my happiness is partly complete for I can't see  
his I can't see it and I know I can't see it and I know I can't see it  
can take it and I know I can't see it and I know I can't see it  
being no back end fine about it. We got letter  
about Bob couple of days ago saying he felt some  
you would follow soon. Also he said "We are  
going to get a break at last it seems. We will  
have a chance to come home for 30 days and re-  
turn here or home for 30 days and refight in states  
for reassignment." Said he was going to take the  
states for his and I feel sure you will feel the  
same. I do hope you follow soon and can come  
on together. I'm praying real hard darling  
I also got a long letter from Barbara telling  
me of Bob and Kate just visit with them. She  
also told me of Ray having malaria. No wonder  
his folks didn't had great things. Remember  
writing me you didn't know why Ray hadn't been  
writing. Ph I know you haven't told. You say I  
saw you've been through I pray it will soon  
be over. Hope I haven't written you any this long  
I write so often I never know what I've said  
or left unsaid. I love you  
Mother

Hello Darling, (Brock)

I wonder how you are feeling tonight. Your letter of March 30<sup>th</sup> came today. As you thought I heard from Bob after his arrival at 952. He was thrilled and happy and I'm happy for him. Seems that my happiness can't be complete for I can't rejoice over his good luck for thinking of you. I know darling that you can take it and I am very proud of you being so brave and fine about it. We got a letter from Bob a couple of days ago saying he felt sure you would follow soon. Also he said we are going to get a buck at last it seems. We will have a chance to come home for 30 days and report in states for reassignment. Said he was going to take our state for his and felt sure will feel the same. I do hope you follow soon and can come home together. I'm praying real hard darling. I also got a long letter from Barbara telling me of Bob and Ray's first visit with them. She also told me of Ray's having malaria. No wonder his folks didn't hear from him. Remember writing me you didn't know Ray hadn't been writing. I know you haven't told me any of worst you've been through. I pray it will soon be over. Hope I haven't written you all of this before. I write so often I never know what I've said or left unsaid.

I love you son, Mother

Happy Easter to all,

Here it is my day to go to church and I didn't go! Well I will go next easter maybe. Any one that has been living as stright a life as I have for the past year shouldn't even have to go to church tho; for its almost impossible to do anything too much out of the way. Its been a most beautiful day here, the sun has been out all day and now we have a wonderful sunset over the mountains.

I didn't mention much about the trip in the last letter on account of I was in a hurry and couldn't concentrate on a thing. Fact is I was still running around like a wild man not knowing what I might do next. For the trip it was very quite and uneventful. Of course I had all enjoyed the last day when we were sitting out good old Hawaii. I didn't get to see Brock the last two or three days I was there and the reason he didn't mention me leaving probably was that he didn't even know I had left. I don't think he mind me leaving him much, after all I was down there long before he was. I wouldn't worry about him for he is perfectly safe and staying there don't seem to bother him at all. However I think he will be coming back shortly (just a guess of course). I haven't heard from him since I arrived but I realize how hard it is to write letters there. I have written him a couple of time and will probably write in a couple of days.

Since I arrived here I have been on the go most all the time. As I said before I was at Wall's the first night but hadn't been back. I just don't get any kick out of going up there - maybe id they would bring some of that good beer or rum out I would get a bigger kick out of it. I have been up at Emersons twice and had a marvelous time. He insisted on me coming up to day but didn't feel up to her therefore I didn't go. I also was up at Mrs Cadys a couple of times and enjoyed it inensley. Mrs Cadys had a quart of Rum she was saving for me and we drank rumcokes and were they good! Mrs Emerson had a quart of Bourton which was very good also. I meet a Mrs Springs the other day and was down to see her one night. She is a very nice person also and told me to come back any time I could get off. I am just waiting until I met one with a daughter about twenty years old and then they will have to run me off.

I had lots of fun this afternoon. A couple of the boys and myself went bowling this after noon and they had been bowling quite some time and was pretty good. For me I had never had a bowling ball in my hand and I went down and played three games with them. By the way I won the third game which did me lots of good. It seems that I was very lucky or some thing for everytime I threw the ball I made a strick which is pretty good. I like the game lots and too it good excrise. I have been so sore the past few days I could hardly walk. We were out playing ball and of course I am not use to too much excrise.

Ray and I are going to the big Island tomorrow for five days. I expect to have a darn good time, and too I have wanted to go over there since I arrive here. We have several addresses so we shouldn't have too much trouble. They kinda caught me short on money but I have 100. and in case I need more I can borrow it.

I received a V-Mail from you to day and sounds as tho you are going to have plenty to eat. Its a darn good idea and having the farm you should have plenty of everything. Is the negro rasing any hogs, calves or anything for you. I think You should make some kind of arrangment with him so as to have plenty of meat. There is no excuse for anyone with a farm being with out plenty to eat and in time to come I imagine you will need everything you can raise there.

By the way reading of the V-Mail I had rather you write letters for that thing is very discourging. Too it seems that the other comes just as fast. I never did like the darn things anyway. If you hadn't got perfect light you can't read it. Another thing time you get started reading you are all over (through). Reading of Grandmothers birthday, I doubt if I will be there by then but its nothing I would enjoy more than being there. Then I could see everyone at one time and know it could be lots of fun. Well maybe we can work something similar to that because I am not going to have time to run all over the country seeing everyone. By the way how is the girl situation there. Hope there are plenty of them!

Had a letter from Ava the other day and she seems to be rather busy. Glad to hear the kids are well again. I wrote a letter to Hilda yesterday congratulating her. I suspose she is married by now, at least I hope she is before I get home.

I didn't know I was so short of clothes until I got here and started buying shoes uniforms and etc. It cost so darn much to have them cleaned and pressed. I don't mind tho as long as I don't have to do it myself.

I have one more letter I have to write to night so will see you later. Give my love to all.

Love

Bob

Dearest Brock:

Well here another week in the making, the day after Easter & a kinda let down feeling. We spent night & day at Mother's. Had a real quite beautiful day all her leaders were gone but Mr. Bob so we had it all to our self. Saw Carol & her big Easter.

I gave Sue Carol a permanent in tip ends of her hair - took Bob & Brock to barber shop for his first hair cut. They both look sweet. Want to get a snapshot of both.

Major left for winter. Before till Friday the way down the prompt possession of a new Singer sewing machine. Seems like a dream come true for he wanted one for so so long. Mother wants one I hope shall trade her in on a new one for they are honey's. Write and encourage her to do so. I'm gonna buy an ironing board. I just had to have one to make my 20 springers some summer clothes. Children's clothes are okay he ready made & I can make them sunsets out of scraps.

Mama had two nice long letters from Bob since he arrived. He but he's really going around in circles. His expecting you to join him soon.

Must close about digging my house in one more mas. Will write again soon. Love you as always - Yours, Sis ~

My darling, and I mean my darling. How I would like to get hold of you to night, I'm forcing my self to think it won't be long till you before your journey back to our home and those that love you dearly.

Not a hour from Sat. to Day. He had been on a three day pass and had a wonderful time. said he had seen you but hadn't heard from you but Barbara, just called and told of it. a letter she had received from you must not have known that Bob told me of his plans of leaving. He did right in telling me and I want you to do the same. Of course I'll be worried till you come yet that wouldn't be as bad as not knowing from you and not knowing why. If you don't fail to come I'd fear you had jungle or malaria fever or some thing else awful. Tell me every thing dear.

Remember I told you that I had a Mopid wife and son living with me. To day I ask what his C.O. brother A.B.O. is and she said 708. This in 20. or 29 Div. of Air Corps. Can't think of his name but will ask again. We bought a new Singer sewing machine last Wed. It's a heavy and make me want to be mighty bad. The man came to see me to day, offered me what I paid for my machine 18 or 19 years ago. To make a long story short. I traded. Made my old machine and \$5.08 down payment. Will pay balance monthly. See need another machine.

in April you will find your baby sister. I'm sure you'll be glad to hear. Bob spoke of the little blonde I had with me and she took a big cry when she read it. She'll be my self. I'll be the same and I'll be the same. I'll be the same.

My Darling, (Brock)

And I mean my darling. How I would love to get hold of you tonight. I'm forcing myself to think it won't be long till you begin your journey back toward home and those that love you dearly.

Got a letter from Bob today. He has been on a three day pass and had a wonderful time. Said he had written you but hadn't heard from you, but Barbara just called and told him of a letter she had received. Son, you might not have known that Bob told me of his plans of leaving. He did right in telling me and I want you to do the same. Of course I'll be worried till you land yet that wouldn't be as bad as not hearing from you and not knowing why. If your letters fail to come I'd fear you had Jungle or Malaria Fever or something else awful. Tell me everything dear.

Remember I told you that I had a Major's wife and son eating with me. Today I asked what his Col. brother's APO is and she said 708. He's in the 26 or 29 division of the air corp. Can't think of his name but will ask again.

Ava bought a new singer sewing machine last week. It's a honey and made me want one mighty bad. The man came to see me today; offered me what I paid for my machine 18 or 19 years ago. To make a long story short, I traded. Gave my old machine and \$15.08 down payment. Will pay balance monthly till I need another machine.

I'm afraid you will find your baby sister very jealous when you come home. Bob spoke of the little blond I have with me and she took a big cry when she read it [unreadable] Hugs and sweet dreams, your mother

Dearest Brock:

The letter scribbled last night didn't make sense. I'm trying again in early morn while I sip my coffee.

Waking up this morning to shop for a house coat to give Betty Marie for graduation. She's had a sweet kid. I hope to find a nice one for her. I have a baby gift to get for Melba + L.B.'s wife if the two youngsters will hurry up + make their arrival. Melba came by to see me two days ago. She's looking small + feels fine. Expecting any day now. Guess Ray has new niece or nephew anytime he arrives. Melba said J.C. was with her + Bob. I thought he was to stay with you.

Trying to get an arbor build on side of my yard that is next to an old building. I'm sure having a time. Can't get material for arbor. I'll be doing it myself.

You should see Robert Brock now. I cut orange halves + gave to him. He's buried in it up to his eyes. He really goes for it. He ate anything I stuck in his mouth.

I must try to get up to see uncle Bud this morning also. Will be going home without my seeing him again.

Games little has been physically deferred twice a week in his back. Guess he's definitely out now. Of the two ex's. Major expects another classification soon. In anxious to know what's up or how it's going to know. Guess you can. Love as always. Your bro

Dearest Brock,

The letter I scribbled last night didn't make sense. I'm trying again in early morn while I sip my coffee.

I'm going up town this morning to shop for a housecoat to give Betty Marie for graduation. She's such a sweet kid. I hope to find a nice one for her. I have a baby gift to get for Melba & S.G.'s wife if the two youngsters will hurry up and make their arrival. Melba came by to see me two days ago. She is looking swell and feels fine. Expecting any day now. Guess Ray will have new niece or nephew by time he arrives. Melba said J.C. was with he and Bob. I thought he was to stay with you.

I'm trying to get an arbor built on side of my yard that is next to an old building. I'm sure having a time. Can't get material for arbor. Guess I'll be doing it myself.

You should see Robert Brock now. I cut orange half in two and gave it to him. He's [unreadable] in it up to his eyes. He really goes for it. He eats anything I stick in his mouth.

I must try to get up and see Uncle Bud this morning also. He'll be going home without my seeing him again.

James Bettle has been physically deferred twice. A sink in his back. Guess he's definitely out now after two tries. Major expects another reclassification soon. I'm anxious to know verdict. Yes or [unreadable] to know. Be seeing you soon.

Love as always, Your Sis

My Dear- I am going  
to try this by Air mail &  
it had better go to you &  
not back to me.

Received your letter written  
on the 19th and I hope not  
to write you this same  
address any more, hope  
your wings will be bring-  
ing you in this direction

I have been sick with  
a cold and you should  
have heard me grunt one  
afternoon I was alone  
for a while and I turned  
on all the noise that  
go with printing & it

helped a lot try it something  
when you feel bad.

Nancy is a handsome  
girl to day, she has the  
mumps on one side and  
her face looks a little  
swollen, last night she  
woke up & looked in  
the mirror & got frightened  
at her self.

We are having a flower  
show to day, wish you  
<sup>could</sup> see all the beautiful blooms

Those tires are waiting  
and a yearning for you  
and Bob. is hanging on  
you cant get here too quick  
all the folks are fine

Hello Sweetie Pie:

I should have written you before now  
but when I do a little - explaining I'm sure  
you will understand the delay. Just as you know  
your ~~husband~~ brother is here which is almost excuse  
enough but I have more yet. Remember I told you  
that Pat. wasn't acting right and that I felt some-  
thing was brewing. I was right. She left one day  
before Bob. arrived. She went to Passapatanz (that  
not spelled right) to work. Will get \$21.00 and make  
a week so surely no one can blame her. I haven't  
been able to find any kind of help but will try some  
more next week. This would happen to me when my boy  
comes home.

Your letter to Bob. Came last night. and it killed  
 me through and through. Keep pulling wires and wires  
 red tape. and get the best you can for Bob. by you.  
 The most important thing is staying together.  
 and getting you other 10 days. fullness together.  
 I don't think Bob is ever eager to get Ray. in same  
 way. With you. in fact he's said he'd rather not.  
 Don't think he likes Ray's friends and ways too much. Ray's  
 girl. Bertwin sister and their father met him at the train.  
 I think every body was a wee bit disappointed for it  
 wasn't very romantic. He walked up and said "Hi" and  
 she said "Hi" - that's all. Now wasn't that flat?

So you got a big kick out of my letter because I was expecting you in July. Please tell me who was responsible for those thoughts - none other than you my dear. I'm still expecting you in

July or Aug. - both of you and that when we are  
going to have fun - Cook or no cook or boarding  
house for that matter.

Bob seems to be having a real nice time - even  
tho his upset over me having no help. You are  
right his dated Doris, and like you think she's  
a sweet date. He dated the Cook girl in McCourt  
one night and last night he dated the Bennett. That  
I introduced you to in the bank. His little sister  
after - so guess she's alright too. Think he  
plans to visit Doris one night tho. She seems  
have been swell about helping me since Betty left.  
We went to Jackson Friday afternoon and came  
back yesterday. Wa. Mayor. Bob and Edwina went  
on the Buff to dance and had a swell time. Bob  
said Edwina was a good date in fact he said  
that they were cousins. She must have been al-  
right for they took Wa and Mayor home at twelve and  
they came in at three. By the way Edwina said the  
boys that went out with you see that night was real  
jealous of you is why they acted so dumb. Said  
they sat out because you took them home for they  
all wanted to get rid of them. That's gratitude isn't  
it?

We are having Mamma's birthday dinner next  
Sun so Bob will get to see every body. Wish you  
could be here. Will have his Chicken fry and dance  
about Friday night I guess.

Betty Jean and Mary Ellen are about to get together  
again. Their Van Dorn friends came last night and  
had this afternoon. They have a good car which  
makes it nice.  
Must stop and mail this. Hope we get another letter  
soon. I love you. Mother (over)

The Coopers got a wire on the 5<sup>th</sup> that Collins  
is missing. They haven't heard anything more  
or are afraid his dead. Your visit meant so  
much to Mr Cooper. Love Mother

Dear Brock,

My, but it seems ages since I've heard from you and surely it has been. I suppose they keep you very busy since you are being transferred and going ~~going~~ home on furlough. You are probably home now and that is why I am taking a chance of catching you there. I was going to wait for you to write to me because naturally I don't know for sure just where you are, but no letter has come and I know that your Mother will forward it for me.

We are all pretty well here. Auntie had a couple of heart spells and wasn't so well for a while, but is better now. Mother is feeling better and more her old self again although she still has to be careful. She has a little trouble in walking yet. Daddy keeps pretty well and is at present working on his moose whistle. It is too cute to hear him--he goes to the piano to tune it out and see how he is coming along. It is good that he has something to amuse himself.

Dougie had his fifth birthday Saturday and this year he had a party. Last year it was Midway time if you will remember and we were all very much on the alert, so no party. Daddy went out with Garton the night before Dougie's birthday and he said that Muffie had a wonderful time and it might just as well have been her party. She is certainly adorable and you would love her to pieces if you could see her now. She talks a great deal, her hair is very blonde and long, and her eyes are the biggest blue ones you ever did see.

Garton has a birthday tomorrow and the following day is David's fourteenth birthday. I can't get over how he is growing up. Garton is now a Lieut. Commander. He is in on duty every third night now.

Did I tell you about our rabbits and ducks? I think I did in my last letter to you, but that letter has gone to where you were before and I don't know just when you will get it. Anyway, Garton is raising rabbits and ducks. We have rabbit hutches behind the garage. This morning I found a little dove with a broken wing and he couldn't fly. I put him in with the ducklings because then the mongoose and rats won't get at him.

I am beginning to help down at Church in the Service men's dining-room again for they do need help and it is one way in which I can offer my services on Fridays. The open houses at the Bishop's house are every Wednesday and the first Saturday of each month. I am still teaching dancing and doing various things of that sort, so I really don't get to many of the "Flying Squadron" dances. I do enough during the week to make up for it though even though I love dancing and should love to attend them all. Central Union Church gives dances for Defense Workers once a month and I go with several of my girl friends to those. They are really fun for we wear long evening dresses, they wear their tuxedos, and we have a dinner-dance until way after blackout. The orchestra is up on the stage and they throw spot lights around the room while the candles glow merrily on the tables. It almost seems like the day before the war.

Tell Bob that I received another letter from Betty a month or two back and

she still has not mentioned being engaged to that Captain. I finally wrote to her and asked her what the score was because Col. Farnum told me that she had written to him that she was engaged. By the way, your Col. is back where he used to be--you know where Bob was and you were before the war.

I happened to mention to Mother that I was writing a letter to you, and she said that she is writing one too! Neither of us knew that the other was writing so something must have inspired us to write today at the same time.

I wish that you would let me know when you receive my letter which has gone to your old address. You see, I explained some things in that letter about my not taking matters for granted and some other things that you will understand when you get it.

How is everybody at home? Your Mother, Bettie Jean, and Ava and family? What fun it must be for you to see your new little nephew and Sue Carol too. I am wondering where you will be sent after your furlough. Do you think that you can manage somehow, as you did before, about where you will be? It is always a great comfort to know if it is a fairly safe place. I saw in the paper where an old class-mate of mine was killed in action in Tunisia, and now we have learned that Brewster Morgon (Dr. Morgon's son) is missing. He was an ace pilot in England and had just completed his 50th bombing mission. I knew him when I was in school and he used to come to some of my parties. He belonged to the same Church and his Mother used to be my Sunday School teacher. I hate to hear of those things and he was such a wonderful fellow.

There doesn't seem to be much else to talk about. Please do write and give us the latest news and tell us how the old home town looks to you. Wherever you may go, whatever you do, you know that we are thinking of you and wish the very best of luck in every way. The same goes for Bob and tell him to write for we enjoy his letters very much and want to know how he is making out.

Love,

Barbara

My dear Brock:

You can imagine how very disappointed I was to learn that you had been right off the harbor, & I was not able to see you or hear your voice over the telephone. I wonder if you have ever to see our house up on the hillside. I was torn between rejoicing and the sadness that you were out of that awful dangerous place and sorrow that you had to pass us right by.

Barbara had written at least two letters to go to on the way and I had written one that must have passed you on the way, and will be a very long time reaching you - if ever.

We both thought you would stop at a line as soon as you reached the mainland and eagerly looked for your family and writing amongst our coast mail, but as yet we have had no word from you or Bob. How long you seem to stay much further away since you reached the mainland.

I wonder if you two boys have seen Aunt Sam & Brock yet. We let you make a real line for him, and for Sue Carol, and Betty Jean will be a big dining card also.

It is funny! But just now Barbara came into the room to get some writing paper from the desk and said, "I thought I would write a letter to Brock," and was surprised when I said that was to whom this letter is going. I have not written to anyone for weeks, and we both get the inspiration to write to you - the same time.

It is hard for me to settle down to write. My pen & paper in Evansston is neglected & I have to use my pen easily since my accident. The doctor has not entirely recovered my three fingers - I think one more injection will do it. But in the meanwhile I have to keep my hand out hanging down, and it is hard to write in that. It is not at all quite a lot but I try to write Barbara's name as much as possible, and then I must be done instead of sitting up for some more writing.

and nothing better is hard lying down.

Life goes on here very much as it did when you were here only no one has to carry a gas mask any more - not even the reserve boys. That is one big relief.

There is to be a little recreation and some sports, mainly in the evening hours - some football. There just will be all you can get of football, but now that you boys have made it known here they expect the best. They spend the day and have dinner with us. Tell Bob the man named Al who was here (and who had just returned from below) the night he was here has returned to the mainland. Harry (the other one) is the son of an Irish colonial minister and is a very fine boy. He is with them but expecting to be away soon. This is a terrible life what they was, we have good friends and they go. Sometimes they come and are very good about it but sometimes they are sent to jail & when let out are a long time getting out. I received quite a number of letters & say and write I value very much

Your thoughtful sister was good enough  
to send me one and I appreciated it very  
much.

Leighton is now a Lieutenant Colonel.  
I told him it is not everyone who has  
the command to cut his lawn  
for him. He says the grass does nicely.

So please drop us a line. I can just  
picture your dear mother's happiness at having  
her twins have come again. I wish you could  
take a family group picture and send us.

Please give my love to your mother and  
family.

With Aloha love

My Dear Brock,

You can imagine how very disappointed I was to learn that you had been right off the harbor, and we had not been able to see you or hear your voice over the telephone. I wonder if you were able to see our house up on the hillside. I was torn between rejoicing and thankfulness that you were out of that awful dangerous place and sorrow that you had to pass us right by.

Barbara had written at least two letters to you down there and I had written one that must have passed you on the way and will be a very long time reaching you – if ever.

We both thought you would drop us a line as soon as you reached the mainland and eagerly looked for your familiar hand writing amongst our coastmail, but so far we have had no word from you or Bob. Some way you seem so very much further away since you reached the mainland.

I wonder if you two boys have seen little Robert Brock yet. I'll bet you make a bee line for him and for Sue Carol, and Betty Jean will be a big drawing card also.

It is funny, but just now Barbara came into the room to get some writing paper from the desk, and said "I thought I would write a letter to Brock", and was surprised when I said that was to whom this letter is going. I have not written to anyone for weeks and we both get the inspiration to write to you the same hour.

It is hard for one to settle down to write. My poor daughter in Evanston is neglected at times. I tire very easily since my accident and the doctor has not entirely conquered my knee trouble. I think one more injection will do it, but in the meanwhile I have to keep it stretched out by lying down and it is hard to write in bed. I do get about quite a bit, but I try to lighten Barbara's burden so much as possible, and then I must lie down instead of sitting up as I am now doing and writing letters is hard lying down.

Life goes on here very much as it did when you were here only no one has to carry a gas mask any more – not even the service boys. That is one big relief.

I still try to bring a little recreation and home life to as many of the deserving boys as I can, especially those just returned from the fighting front, but now that you boys have gone I seldom have them spend the night. They spend the day and have dinner with us. Tell Bob the man named Al who was here (and had just returned from below) the night he was there has returned to the mainland. Harry (the other one) is the son of an Episcopalian minister and is a very fine boy. He is still here but expecting orders any day. This is a terrible life where they come and become good friends and they go. Sometimes they write and are very good about it, but sometimes they are sent

Shello darlings;

"Alec quite on the Western front  
so see try writing you. Come to think  
of it it's almost too quite to be com-  
fortable. Ada and babies are gone. Betty  
Jean and Bert have gone to school  
and my "jest" has gone to his room  
and not one sound can I hear. (He  
has an argument with my self over  
how to spell hear).

Guess I had better explain my jest.  
His Mr Butler from State Office. He  
been with us for three weeks now  
Tues. to Sat. and will certainly be glad  
when he checks out for a while. He's  
having the Silencers put out of order  
and taking a Carpenter on retainer.  
Caring for him is a bother and then  
his popping in and out at all hours  
yikes day. Starts taking his drinks  
at five when he takes off the job  
and big buffer he is a very talkative  
man. I left Betty Jean and Bert to  
fix supper for him yesterday and when  
he got back they  
had danced and polished for him  
until they were exhausted. They  
said he had been feeding the

machine for two hours and had  
them dancing all the time.

Wish you could have met Bert. She  
worked in one of the Lakeview Cafes  
days after you left. She staying with  
her sister who is the wife of the young  
gentleman so they are leading 1st  
Friday for home. Her son will miss  
her and she wants her coming back  
next summer to work for her. They  
are think Miss. is a wonderful state.

Quinn and I drove out to the farm  
after B.F. got home from school  
yesterday. The house is covered and  
looks like well. They the region are  
entirely under the lake being  
stuffed. Mrs. Perkins wouldn't offer  
me but \$5.00 for the house but  
Coli. said that he thought he would  
sell it to Allan for \$800.00. I came  
by to see Allan but he wasn't at  
home so I left word for him to call  
me to day. Hope he takes it for it  
is like the down truck yard  
is going to cost me \$500.00 or \$5.00  
- note that to get him to see if  
we could buy one on our order at  
wholesale which will be much cheaper.  
Bert thing happiness to me. I call my  
son's off. Mr. White said that his  
daughter was coming his son but not

his consent and the lawyer says  
there is a clause in the law that will  
exempt him from paying the damage  
and I'd have to catch him in some  
and sue him. Ed's working for the  
government in Alaska so I'll just  
forget the whole thing. fix the fence  
in front and drive him as it is  
and I can fix it. There's no  
action in court and I hope we  
won't have to look to it for help  
any more.

The advance co. was having a big  
barbecue and dance here to night.  
Looks now like it might be cold and  
raining which will be bad for the  
barbecue in the picnic shed. They  
ought to have had a covered a banquet  
room for the picnic. I'm driving now he!  
Miss Shamkaper went to B.F. and  
Betty Dick. The girl (you know) took  
a part in the class play and she  
loved it and was mighty glad. B.F.  
would have missed ball practice (and  
made the real reason by she didn't  
want to it). and they would have had  
a game in the night. For two or  
three weeks to practice. B.F. got three  
misses to Betty and she was a  
wonderful girl. Had to go  
in with them. I'm glad to know she

Was asked to take a part and we are  
glad that she didn't take it. Bob. B. I'm  
having trouble with her history so  
guess she can get something from you.  
It's the only thing she ever studies at  
home. Yet makes the same grade. I'm  
sure she's not thinking enough about  
her studies which will be much help  
to her if or when she goes to college.

Am enclosing Mrs. Wells' letter. If you  
can read it better like and Barbara  
should do so soon. Notice in  
my letter she said she was going to  
do and please you from the bottom  
of my heart. Love  
Be sure to write soon.  
Love you as ever  
Mother.

Hello Darlings,

All's quite on the western front so I'll try writing you. Come to think of it, it's almost too quiet to be comfortable. Ava and babies are gone. Betty Jean and Bert have gone to a show and my "pest" has gone to his room and not one sound can I hear (ha had an argument with myself over how to spell hear)

Guess I had better explain my pest. He's Mr. Bathia from state office. He's been with us for three weeks from Tues. to Sat. and I'll certainly be glad when he checks out for a while. He's having the willows cut out of the lake and working a carpenter on repairs. Cooking for him is a bother and then his popping in and out at all hours of the day. Starts taking his drinks at five when he takes off the job and by supper he's in a very talkative mood. I left Betty Jean and Bert to fix supper for him yesterday and I went to the show. When I got back they had danced and performed for him until they were exhausted. The said he had been feeding the machine for two hours and had them dancing all the time.

Wish you could have met Bert. She moved in one of the cabins couple of days after you left. She is staying with her sister who's a Lt.'s wife. He's being sent across so they are leaving next Tuesday for home. We sure will miss her and she [unreadable] she's coming back next summer to work for me. They all think Miss. is a wonderful state.

Vickie and I drove out to the farm after B.J. got home from school yesterday. The house is covered and looks right well. The negroes are certainly proud of the leaks being stopped. Mrs. Rushing wouldn't offer me but \$65.00 for the house but Eli said that he thought he could sell it to Alfons for \$80.00. I came by to see Alfon but he wasn't at home so I left word for him to call me today. Hope he takes it for it looks like the darn truck fender is going to cost me \$45 or \$50.

I wrote Ava to ask Slim to see if he could buy me a new fender at wholesale which will be much cheaper. Everything happens to me. I call my suit off. Mr. White said that his daughter was driving his car without his consent and the layer says there's a clause in the law that would exempt him from paying the damage and I'd have to catch her in Miss. and sue her. She's working for the government in Alaska so I'll just forget the whole thing, fix the fender I bent and drive mine as it is until I can fix it. There's no justice in the law and I hope I never have to look to it for help any more.

The ordinance company are having a big barbeque and dance here tonight. Looks now like it might be cold and raining which will be bad for the barbeque in the picnic shed. The might wish they had ordered a banquet in my nice warm dining room Ha!

Mrs. Shambeanger wanted B.J. and Betty Dial (the little girl you liked Brock) to hake a part in the class play but they declined and I'm mighty glad. B.J. would have missed ball practice (and that's the real reason why she didn't want it) and they would have had to go in every night for two or three weeks to practice. It's three miles to Betty's so Ava or I one or Mrs. Dial would have had to gone in with them. I'm glad to know she was asked to take a part and I'm also glad that she didn't take it. Bob, B.J. is having trouble with her history so guess she can get sympathy from you. It's the only thing she ever studies at home yet make the worst grades. I'm afraid she's not thinking enough about her studies which won't be much help to her if or when she goes to college.

Am enclosing Mrs. Wall's' letters. If you all haven't written she and Barbara you should do so soon. Notice in my letter she said she was going to offer and release you from the burden of writing them.

Be sweet, sweet dreams,

I love you an awful lot, Mother

Monday night

Dearest ones,

Well, Mary E. and I went to N. O. Friday and I got my ring and locket. Gu! they're so pretty and I'm so proud of them. You know I never had any kind of jewelry before. And I'm crazy about my wings. All the ~~the~~ girls envy me now that I wear a pair of silver wings.

Oh! Boy! did we have fun in the city. We went down Friday ~~at~~ noon and was supposed to come back that night but, being surrounded by 8 or ten good-looking soldiers

<sup>2</sup>  
at the station, we missed our  
train. We had to get a hotel  
room. The only one with a  
vacant room was the La Salle.  
A nice little hotel on Canal.  
We made it to bed about two  
thirty and slept till twelve next  
day. We ate dinner, took in a  
show, fooled around, crossed  
the river & back on the ferry  
and etc. At the train station  
Sat. morn we met two cute  
sailors who wanted to take  
us some place before leaving  
time but we wouldn't take  
the chance. We just stuck

around and <sup>3</sup>met two other nice  
ones who were content to sit  
and wait for the train which  
incidentally came about 10 min.  
after they introduced themselves  
(darnit!)

Boys! you have ~~got~~ to do  
some thing with our mother!  
She's simply working her  
head off trying to cook for all  
these people. She's in bed  
groaning right now as a  
result of today's work. I had  
to put her to bed when I  
came home from work and  
cook supper. I left her sitting  
over dinner and found her

canning figs this afternoon.  
I had to go get the little negro  
girl because "it was drizzling  
rain!" she said as if she  
never had walked in the rain  
and what burned me up was I  
walked home from work in  
the rain. You got to make  
mother quit or pretty soon you  
won't have a mother to read  
those letters about all the  
pretty girls you take out every  
night and no one to send you  
gas stamps. No joking. some  
thing must be done and it seems  
you are the only ones left to  
do it. Every time Ana or I  
say something she gets perfectly

5  
furious and doesn't speak at  
us for days. There must be  
something you ~~can~~ say or do.  
You seem to have such a way  
with women - why not  
turn on the technique with  
your mom? She'd listen  
to you when she'd ignore  
every one else. (Don't  
let your head swell) What  
I would love to see her do  
is pay. Allie, Jip, and Maxine  
a visit. They'd love to have  
her and you know she  
love to go. Come on! help  
me out. I'm in a rut and  
worse than ever I may

be an orphan. <sup>E</sup> I hope  
mother doesn't get her  
hands ~~down~~ on this before  
I mail it - she'd murder  
me !!!

Well, tomorrow is a new  
day with plenty to do.

ring. Every one thinks it's

I hope this letter reaches you  
soon. Helen & I still love me.  
but it looks like she has got a  
hell-of-a long wait ahead of her.

Well Brock, I'm a busy man  
now - a - day, so must close for  
now. Please answer soon.

Tell your brother hello. & hope  
you get close to home.

I'll see "Babs" if possible, for

Dearest Mather,

So it wasn't your idea at all -  
not to take over the Lodge, maybe  
you will be lucky enough to get Banks  
until you do go to the Lodge. I believe  
Doris and Betty-Jean would like it  
there.

You and others may think Ray is  
morgued properly but I have a  
feeling that Diamond, he gave Grace  
want keep him some nights. He  
has been out with us three times  
already. Was engagements doesn't mean  
a thing. I hope she doesn't expect Ray  
to stay home and dream of her. Ray  
like Bob and I is out for all the fun  
he can have. Remember - what I write  
about Ray is between you and I. The  
public is not to know. What she doesn't  
know will not hurt them or her.

we will be here several more days so  
you will have to wait to hear of our new  
location. Bob & Ray signed the pay roll but  
want get paid for two or three days. After  
they are paid we will be subject to dis-  
pament. After we are put on alert we will  
probably leave 3 or ten days afterwards.

We don't mind staying here for we are  
having a good time. The only trouble is  
if we stay here much longer we want  
be home on our birthday. If we don't  
make it for once we will for years.  
This is a good place to be when there  
is no work to be done. There over  
night passes but just what we like.  
We will get some peace at new station  
but we will have to work during  
the day. (We sleep here)

We hope to see you soon

Dearest Boys:

Well I got the letter last night  
so am in a better mood. But I'm fussier  
than any of your girls when you fail to  
write. The letter was a late one from Bob  
with an old one of Brocks enclosed. You  
sound like you are having a wonderful  
time and I'm so happy that you can.  
The money orders came and I'll go down  
tomorrow and take care of the first two for  
\$75 and \$20. Sorry I had to make it so  
heavy but getting it at separate times made  
it necessary.

No son I haven't got the check from the  
government. Shouldn't it be for more than  
\$22.50? It's from time you made staff tie  
now. Mary E. husband told me some thing I  
want you to investigate. He said that he  
had made his mother an allotment to  
make his income and Victory tax lighter.  
He said if you make me an allotment  
for as your dependent you will not have  
to pay on that. If this is true you should  
make it for the amount you want to send  
home and save the tax. I don't know  
if this is true but it's worth investigating.  
I went to see Hettie this afternoon.  
She wants to come but of course can't  
until they get their cotton picked. Mark

said he would let Hettie come by the 15<sup>th</sup> of Sept. Thats a long time off but expect I'll still be waiting her. Vickie has our trip to Lynchburg all cut and dried for the first of Sept and tried to make Hettie say she would take over before then. She's a mess. Said she got a letter from Joe (her son) yesterday and he said he saw Alice on his last trip. Said when he told her that she and I were coming for a visit she like to have torn his suit off of him. I expect she did. Can't you see her?

We went by the place and I got so disgusted don't know when I'll go back. You know the peas I planted for Canning. Well they had picked and sold all of them. Said they thought thats what I wanted them to do. My part was \$12. but would have been much more if I could have sold them. Then I went to get my Irish potato seed to plant and they had eaten them up. Have a big pecan crop and I'm going get them if I have to gather them green.

Betty Jean, is taking her vacation this week. She was to go to Franklinton - this afternoon to visit a friend till Friday. but decided to wait till tomorrow. Virginia Payne wanted her to go to Van Dorn with them this afternoon and she found that Mr and Mrs Babington are going down in the morning so decided to go with them.

She will work Sat. and will go to Jackson  
for a short visit next week. School starts  
the first day of Sept. so she doesn't have  
long to work or vacate. She had her biggest  
day yesterday - sold \$128.00 worth of mdse.  
Her boss thought it was wonderful.

I forgot to tell you in my last letter  
that Betty Jean got a letter from your  
Daddy last week. Said - Oh I'll just  
send you the letter and let you  
see what he said. She and Ava has  
written him but I'm afraid he was  
so proud of Betty's letter. By the way Ava  
is fussing up a storm about you  
not writing her. Have you got the birth-  
day gifts she sent you. She ask to day  
if you had mentioned them to me, that  
she hadn't heard word one from you since  
she sent them. Hope you get them for  
they are nice.

~~will~~ send you another ballot this  
week with instructions how to vote. I'm  
sure tho it will be Bailey for governor  
Have never seen any body want one but  
worse than mamma wants Combs. Do  
hope we get him. If I don't get better help  
I'm afraid I want do much about  
beating him. Have fun darlings but  
please don't forget to write me.  
Love and kisses Mother.

Hello Darling;

I know you think I've been careless about writing you. It hasn't been carelessness at all but I've had so much to do that I'm dead tired when night comes. Dora, has been with me over a week and has worked as most as hard as I. She's certainly a swell person and is always helping me out ~~in~~ <sup>the</sup> same way. She's staying with Hobson to night and tomorrow night and will go home Tuesday to date. Mamma came yesterday to be here to vote Tuesday. ~~my~~ but I hope Barkley and Riley win.

Well I'm giving this house up on the 1<sup>st</sup> and moving with Ada and the children. <sup>Major</sup> has joined the Navy and will be leaving soon so am sure getting to gathering to what we should do. I hate like the devil to see him go but it's what he wants and no doubt he would be drafted before long anyway so guess it's best. I hate leaving Magnolia on Betty Jean's account for I know she loves it here. However I'm sure she will feel quite different about McComb than she did when we lived there before. We were both so unhappy no clothes or any thing. I may send her to Summit or I should say Southwest. Mr. Kennard told Ada it cost \$4.2 a unit (6 week) for straight course or \$18 for commercial and I want her to stay with me until she finishes high school. The question of

help is going to be worse in case of better  
They promise to come and you better see  
them and those that do come or not with  
a "test" I'm simply worn out and don't  
know if I can hold out till the 1st or not.  
Zora will be home to morrow and I'm  
going to tell her so guess she'll go in  
to care again as she did when she thought  
I was leaving in the spring. I've enjoyed  
my stay here as long as I had good help  
and have also done right well, but I'm  
convinced that I can't carry on.

Surprise number two is that I'm getting  
ready to go to Lynchburg about the 18th of  
Sep. Joe called Vickie to day and said he  
was mailing her ticket to morrow. I got a  
letter from Alice yesterday and she sounded  
thrilled to death over the thought of my coming  
and listen what she said - "Bunt Bean, I'm  
leaving here about the 20th for Maxine to  
bring Papa home. Am going in my car  
and if you'll come and go with me it won't  
cost you a cent". I never really thought much  
about going until I got her letter. But that  
sounded like too good an opportunity to pass  
up. You know I've never been further  
south than New Orleans or further  
north than Jackson, so it will be  
a wonderful trip for me. And too I know  
the girls love me and will do all they  
can to make my visit a great success.

I forgot to tell you that I plan to get  
me a job when I get back. Was spoke to

the manager of Penney about me yesterday  
and he said he felt sure he could give  
me work when I returned. Don't think that  
I plan to sit down on your darling for  
I don't. However I've got to get something  
easier than what I'm doing now. For one  
month tho I plan to for get work completely.  
I hope I hope!

I've been thinking of you all day. Wondering  
just how big a time you were having on  
your trip to Yellow Stone N. Park. You didn't  
say how long a leave you had. I'm so  
glad you can go to the places of interest  
around you. A car is an expensive thing  
but a damn good one. As usual we  
joined Roberson and Mamma at Dixie  
Springs for the afternoon. Wish you  
could have seen Betty J. riding the surf  
board. First time she had ever tried  
to ride one and the roscel did  
fine. I'll try any thing once. I  
want to write Alice a note to inform  
her that I'm taking her up on her  
offer. Tomorrow is Monday and an  
awful hard day so I need some  
sleep too. Hope you approve of what  
I'm doing for I didn't have time to  
ask your advise. Be sure to say  
darling and don't forget I love  
you Stanley Mother.

Hello Darlings,

I know you think I've been careless about writing up you. It hasn't been carelessness at all but I've has so much to do that I'm dead tired when night comes. Dora has been with me over a week and has worked almost as hard as I. She's certainly a swell person and is always helping me out in some way. She's staying with Hobson tonight and tomorrow night and will go home Tuesday to vote. Mamma came yesterday to be here to vote Tuesday. My but I hope Bailey and Culey wins.

Well I'm giving this house up on the 1<sup>st</sup> and moving in with Ava and the children. Major has joined the Navy and will be leaving soon so am sure getting together. It's what we should do. I hate like the devil to see him go but it's what he wants and no doubt he would be drafted before long anyhow so guess it's best. I hate leaving Magnolia on Betty Jean's account for I know she loves it here. However I'm sure she will feel quite different about McComb than she did when we lived there before. We were both so unhappy; no clothes or anything. I may send her to Summit or I should say Southwest. Mr. Kenna told Ava it cost \$12 a unit (6 week) for straight course or \$18 for commercial course. I want her to stay with me until she finishes high school. The question of help is going to be worse in place of better. They promise to come and you never see them and those that do come are not worth a "hoot". I'm simply worn out and don't know if I can hold out till the 1<sup>st</sup> or not. Tera will be home tomorrow and I'm going to sell her so guess she'll go in to tears again as she did when she thought I was leaving in the spring. I've enjoyed my stay here as long as I had good help and have also done right well but I'm convinced that I can't carry on.

Surprise number two is that I'm getting ready to go to Lynchburg about the 18<sup>th</sup> of September. Joe called Vickie today and said he was mailing her a ticket tomorrow. I got a letter from Alle yesterday and she sounded thrilled to death over the thought of my coming and listen to what she said. "Aunt Bess I'm leaving here about the 20<sup>th</sup> for Maxine's to bring Jepa home. Am going in my car and if you'll come and go with me it won't cost you a cent. I never really thought much about going until I got her letter but that sounded like too good and opportunity to pass up. You know I've never been farther south than New Orleans or further north than Jackson, so it well be a wonderful trip for me. Dearest Mother,

I know you are anxious to hear of our  
trip to yellowstone Park so I will start in  
and tell you. The thing is we had a lot to see in  
such a short while. I make every minute of the  
day count we left here Saturday mid night. Every  
one but the driver tried to sleep. None of us did  
well at all. We didn't have a flap but we had  
trouble. The one that had been vaccinated, was  
running all over the place. We put the extra one  
in its place. We will inspect the tire. If it is  
not safe we will ask for a new one. The  
generator acted up a bit. I don't know what  
happened to it for I haven't investigated. I  
think it allowed too much gas to flow. I think  
we averaged two miles to a gallon going up.  
Not much better than that going back. We will  
have generator changed or adjusted to get it more  
right. We didn't hit either double trouble or for  
a good time. We had one the car  
first then Ray. When Ray got sleep, I  
went to Yellowstone at five a.m. The time

were still black. The gate, West Gate, was closed. We  
had to wait until 9:45 to enter the park. We had to  
wait until 6:30 for breakfast. We had breakfast at  
6:30 and entered the park at 7:45. The Ranger at  
the gate gave us a map with instructions. The  
regular entrance fee is \$2.00 service men free. We  
were glad to hear that for we didn't expect to be charged  
to enter the park.

The Park is probably noted for its Sycamores for we  
saw more Sycamores than any other tree. Each Sycamore  
has a name. Most of them are of different colors. They  
are all Sycamores. There is one that suggests one of  
the water rising 75 ft. high. Some of the Sycamores  
are so old that they are blowing out of holes in the  
ground. Most of the Sycamores that are at  
least some hole due to the pressure of the  
and they are not at the same point.

The Park has four or five different kinds of  
Sycamores. At each river there is a water fall. The water  
falls are quite different from each other. It is a beautiful sight  
to see a river that is several hundred feet  
high and 100 feet wide.

We didn't see all of the Park for we didn't have time  
to see it. It is a 150 mile square. We had to go

it would take 2 or 3 that much time. We entered  
the west gate in Montana and left by the  
south gate in Wyoming. I was confused when  
I found that was in Montana that morning  
in front of my house. I had been in that state  
for two years and I had never seen it. I have a picture  
of you there. It was taken by my father. I had  
two other. We got a blacker, swiss brown and tag  
the cat.

We left the Bob at 5:30. Reached Jackson, Wyoming  
at 6:00. Had dinner + time. Left for Caspelle  
after eight. We passed the Gator  
mountains all the night. I don't know the night but it was  
miles up & down by the road. I must check on  
the night. We stayed in a room for something  
to drink. I had been asleep. My father driving. I was  
to drive from there to bed. But couldn't sleep so he  
drove for me. I slept all the way. We reached  
Caspelle at 11:00 after mid night. Took the girls  
home. Then we went home. Went to bed and  
slept till 7:30. I was bed until ten. Took Calithia  
from ten to eleven. The dinner and slept that afternoon.

I get up for supper and went back to bed.  
The C. & G. woke me at 11:30 p.m. to release him  
that he had a new coat before I came on that I  
had paid off to let I will be on C. & G. until  
the next morn. I will probably stop this afternoon  
for a look with date of leaving.

Well it's time for us to get to gathering and  
get you away from all this work and worry. We  
tell you that Mayor ask you to move in with him.  
Probably you didn't give him an answer. When he  
leaves you he will need each other. You may  
want to be in his help but you want to be  
moving out to a new place. You want you want  
going through but you still refuse to change. We  
ask you again to give us the boarding house,  
move in with you, take your money - to Virginia  
and I suggest to New York, come back a new person  
if you like and settle down and live  
a normal life. This should be done before the  
first of the year. Can start to school in  
the fall. First of all stop worrying about what  
your next dollar is coming from; then make the  
same old plan. We don't want to get over

wish you over this for it is silly of you to  
let this way get out of this way - why should  
we tell yourself nothing because you don't want  
to be alone but on your Christmas - we are going  
to give you twenty years more - if you want  
to be our daughter. That long you had better write  
to us now and let us know what you do. We  
don't make you for we live too far away. It's left up  
to you - take it or leave it. Move in with her  
tomorrow and live a happy life or stay where you  
are. I be a Kansas much in less than a year  
(you would be a daughter - who wouldn't like  
it either.)

Make us happy by letting us know that you are  
with her and let us go to Virginia next month.  
We are waiting for this message and none other.  
Be a good girl now.

Give my love to all. Tell Doris I  
will write her sometime in the near  
future.

Love + kisses

Dearest Mother,

I know you are anxious to hear of our trip to Yellowstone Park so I will start in and tell you. The thing is we had a lot to see in such a short while. To make every minute of the day count we left her Saturday Midnight. Everyone but the driver tried to sleep. None of us did well at all. We didn't have a flat but we had tire trouble. The one that had been Vulcanized was bumping all over the place. We put the extra on in its place. We will inspect the tire if it is not safe we will ask for a new one. The carburetor acted up also. I don't know what happened to it for I haven't investigated. I do know it allowed too much gas to pass. I think we averaged ten miles to a gallon going up. Not much better than that coming back. We will have carburetor cleaned and adjusted to get it normal again. We didn't let either trouble trouble us for we were out for a good time. We had one too. Bob drove first, then Ray. When Ray got sleepy I drove. I got to Yellowstone at five a.m. The town was still black. The gate, West Gate, was closed. We had to wait until 7:45 to enter the park. We had to wait until 6:30 for breakfast. We had breakfast at 6:30 and entered the park at 7:45. The regular entrance fee is \$3.00 service men free. We were glad to hear that for we didn't expect to be charged it enter the park.

The park is probably noted for its geysers for we saw more geysers than anything else. Each geyser has a name. Most of them are of different colors-they are of all sizes. There is one that ejects once a day the water rising 75ft high, some of the geysers are nothing but gas blowing out of holes in the ground. Most of the spring there are at boiling point. Some boils due to the gasses under them and they are not at boiling point.

The park has four or five different rivers running through it. Each river has a water fall. The Yellowstone falls is the prettiest of them all. It's a hundred foot drop into a canyon that is several hundred feet deep and 1500 feet wide.

We didn't see all of the Park for we didn't have time. It is at least 130 miles square. Think how long it would take to see that much territory. We entered the west gate in Montana and left by the south gate in Wyoming. I was confused when I found that I was in Montana that morning instead of Wyoming. The Park is in three states. The two above and Idaho also. I have a pillow slip from there "to my sister" They didn't have any other. We got a sticker, swiss broom and tag for the car.

We left the park at 5:30. Reached Jackson, Wyoming at 6:30. Had dinner there. Left for Pocatello a little after eight. We crossed the Teton Mountains. It's the highest mountain I've ever ridden over. I don't know the height but its ten miles up and down by the road. I must check on the height soon. We stopped in Remington for something to drink. I had been asleep. Ray was driving. I was to drive from there to her. Bob couldn't sleep so he drove for me. I slept all the way. We reached Pocatello shortly after midnight. Took the girls home. Then we went home. Went to bed and slept till 7:30. I worked until ten. Took [unreadable] from ten to [unreadable]. Ate dinner and slept this afternoon.

I got up for supper and went back to bed. The C.O. woke me at 11:30 to relieve him. That's where I am now. Before I came on duty I had fried eggs to eat. I will be on C.O. until twelve noon. I will probably sleep this afternoon before Bob and I with dates go swimming.

Mother it's time for us to get together and get you away from all this work and worry. Ava told us that Major ask you to move in with Ava. Naturally you didn't give him an answer. When he leaves you and Ava will need each other. Your living expenses will be cut in half and you won't be playing nurse maid to a dozen boarders. You what you are going through but you still refuse to change. We asking you again to give up the boarding house, move in with Ava, take your vacation to Virginia and maybe to New York, come back a new woman get a job if you like and settle down and live a normal life. This should be done before the first so Bettye Jean can start to school in McComb. First of all stop worrying about where your next dollar is coming from; thousands are being made daily. We don't want to get cross with you over this for it is silly of you to act his way. Let's not be this way-why should you kill yourself working because you don't want to be dependent on your children. We were dependent on you for twenty years weren't we. If you want to be our dependent that long you had better listen to us now and do what we want you to. We can't make you for we are to far away. It's left up to you-take it or leave it. Move in with Ava tomorrow and live a happy life or stay where you are and be a nervous wreck in less than a year (then you would be a dependent-we wouldn't like that either).

Make us happy by letting us know that you are with Ava and are on your way to Virginia next month. We are waiting for this message and none other. Be a good girl now.

Give my love to all. Tell Doris I will write her sometime in the near future.

My darling boy.

I know you think that your mother is getting to be a bad girl about writing but I have the same excuse to offer. Work and more work. Just two more mornings and I want to go to bed thinking about getting up at six o'clock to fix Mr. Bob's breakfast. I've enjoyed my stay here and am very grateful for what I've done in a ~~few~~ <sup>few</sup> ~~days~~ <sup>days</sup> way but I've worked too hard ~~it~~ this summer.

Brooks' letter telling of the trip to Yellow Stone Park and giving me rides came this morning. I'm sure the letter telling you of my

decision to move with Ava.  
Reached you soon after you  
sent it. The trip to the park <sup>land</sup>  
ed. Wonderful. Too bad tho that  
you didn't have longer to stay  
Major, goes to Shulba on the 7<sup>th</sup>  
to be sworn in and then he  
will leave in seven to thirty days  
- seven more likely. I'll leave  
him the 1<sup>st</sup> after fraying my  
hires and getting the house  
straight. All are sick over my  
leaving and don't know how  
they will manage their eating  
By the way, Dora, is leaving  
too. on the 1<sup>st</sup>. ~~Book~~ Poor but  
was transferred to Liberty and al-  
most died when she learned  
about it. I don't think it will be  
so bad or at least not as bad  
as she's afraid of it being. Major  
moved a load of my things in

Summer and I've decided to  
let her do it. It will cost \$18 a  
month but Mr Kenner said if  
she wanted a job sweeping floors  
it would pay \$8 a month. Mrs  
K. said that several of the girls  
worked in Summit and McComb  
Sat. Afternoons. If she can get  
a eight hour job Sat. I'd  
rather she do that ~~can~~ than ~~sweep~~  
sweep the floors. If I land a  
good job we will be alright.  
I wouldn't want her to rush through  
school but harvest it look now  
like our high school will soon  
be nothing. And too B.G. is big  
and old for her age and I know  
can take care of herself. A nice  
coat and shoe is about all  
she's left for us to get her this  
winter. I think she's a smart  
girl don't you?

the company truck yesterday  
He's coming tomorrow after work  
for more and then we'll move the  
refrigerator Tuesday night. My  
but I'm proud of it. Awa. is letting  
the Pops use here. They have an  
ice saw but don't have an ice  
route any more. They should be  
proud of it. Expect the house will  
be a little crowded unless we  
find a place to store a few  
things.

I hope you approve of my plans  
for Betty Jean. I hated to move  
to Mr. Combs on her account. She  
hates it and I know. it. However  
she's tried to make me think she  
didn't mind. Last week she ask  
ed I would send her to South  
West. so she can finish high  
school this winter and next

Did you think I'd forgotten the  
trip to Pa. Well I haven't and plan  
to leave the 8<sup>th</sup> or 10<sup>th</sup>. I got Air  
mail letters from Alie and Mack  
to day and will send them to you.  
I know they would be glad to  
have. Am I conceited or am  
I conceited? ha, Alie going to Mack  
in her car and said the trip  
would not cost me a cent. Sounds  
too good to be true. I love going  
to see them but would much rather  
be taking my self toward you. Of  
course I know it would cost too  
much and I'd hate to have P.D. if I  
was going to see you. Do you  
still think you will get a furlough  
in Nov. and coming south in  
the fall. How I wish you could  
be stationed near enough home  
that we could visit you often  
hoping you will be soon.

Sorry you had Car trouble on  
your trip and hope you didn't find  
much wrong with it. Getting my  
brake lined Cost me \$2.50. I  
got a Certificate for two #1 grade  
tires and ordered them from Sam  
Friday. The two Cost \$31.75. Mr. Quinn  
said one of my tires would take a  
retread so I'll have four good  
tires. Wish I could have had my  
car checked and everything fixed  
and righted up before I gave  
the house up but I couldn't go  
on another month without help.

Boys I want be home first of  
Oct. so I want you to send the  
money order for the notes to Steve.  
for I don't want to take a chance  
on it being paid late. Also write  
him a note of thanks for being so  
nice about letting me have the money.  
Address Mr. Steve Babington. Magnolia.  
There must be a stopping paper so  
I'll make this it. I love you both  
over  
rite Mr. mother

Nite nite, mother.

Mamma and Lena came down today and my help (Dora bless her heart) went home with them. I'm glad for she's been doing too much. We all are - except Tal - happy over beating Mike Conner. Dr. Riley lost but he and Lena will be taken care of.

Dear Mathus & all,

well I feel much better now that we got paid this morning. I was a little extra upset this month & checked up a little short. It being the last of the month gave you a warning & getting killed & seen again. I am really glad to that you are ready to start vacation. I am really having trouble with this pen. By the way has the paper come back yet? Finally much. As I was saying hope you are ready for the vacation. you will have 10 days to brighten things up & not before starting. I know you will be glad to get a break for once. First in way you & I do hope every thing turns out O.K. I wonder if you would be too tired to drop back by Pocatello for a couple of weeks? I sure would like to see you. If you think you can make it we know & we will get a room & everything. We could have a wonderful time too! We could go to Yellowstone. Salt Lake & lots of places. Too I don't think we will be over a couple of months & would like for you to see this country. If you wanted to

you could get away here and stay couple months.  
wouldn't that be nice. So in case you are not too  
tired after the other trip just let me know. I would  
really like to have you come up. You would enjoy  
it too. It wouldn't cost but very little more  
than train fare either. So think it over. you  
could get a one way ticket to Va. & get ticket home  
there. I think it would be a good deal for having  
us as here and can't get but 7 days at home  
it would cost much less for you to come here  
than for the both of us to make the trip. How  
about it? (Hope you say yes.)

Well has mother left her the money or yet? But  
he is all ready to go. I hope he gets a good  
Station & maybe close by. Give him my love &  
I am still wondering how he will make that  
much money. I don't know much about the  
money tho. Glad to hear Ann is getting better &  
she is doing all kinds of things. I hope  
she continues.

I am wondering what B. J. has decided to  
do. Guess she will know by now. She will  
do what is best tho I am sure. She is really a

seem kind of seem to have plenty of sound  
judgment. She doesn't seem like a kid of 15.  
I am really proud of her.

Boy is it getting cold here! I thought it was  
going to freeze yesterday but didn't. It warmed  
up a bit today. It's the mornings that cold  
here. I don't mind it much tho. Fort is like  
the place was every day.

Remember I was telling you about the girls  
I met well we changed & things are going  
O.K. They are really nice & good looking. we have  
lots of fun with them. Think we will go to a  
dance to night.

Brock got a letter from Barbara today & she  
doesn't seem to be angry at all. We will in the  
end, probably. I can't be married tho for she  
should be able to understand.

Roy is leaving for Salt Lake the 4<sup>th</sup> to go to  
school a month. He seems to be happy over the

deal but I don't have any desire to go to  
school again.

We were at the Shamrock Sat night & had  
a wonderful time. How about a date to go sometime  
and see it. would have a big time.

Well there is no more so think things  
are over but we know what you decide. Keep you  
decide to come. Give my love to all.

Dearest Mother and all,

Well I feel much better now that we got paid this morning. I was a little extravagant this month and checked up a little short. It being the last of the month guess you are moving and getting settled down again. I am really glad to know that you are ready for that vacation. (I am really having trouble with this pen) By the way has the packard come back yet? I really need it. As I was saying hope you are ready for the vacation. You will have 10 days to straighten things up and rest before leaving. I know you will be glad to get a break for once. First in many years & I do hope everything turns out OK. I wonder if you would be too tired to drop back by Pocatello for a couple of weeks? I sure would like to see you. If you think you can make it let us know & we will get a room & everything. We could have a wonderful time too! We could go to Yellowstone, Salt Lake, and lots of places. Too, I don't think we will be over a couple of months & would like for you to see this country. If you wanted to you could get work here and stay couple months. Wouldn't that be nice. So in case you are not too tired after the other trip just let us know. I would really like to have you come up. You would enjoy it too. It wouldn't cost but very little more than train fare either. So think it over, you could get a one way ticket to VA and get ticket from there. I think it would be a good deal for being we are here and can't get but 7 days at home it would cost much less for you to come here than for the both of us to make the trip. How about it? Hope you say yes.

Well has major left for the Navy as yet? Bet he is all ready to go. I hope he gets at a good station & maybe close by. Give him my luck & I am still wondering how he will make that much money. I don't know much about the Navy tho. Glad to hear Ava is getting better & she is doing a fine job of losing weight. Hope she continues.

I am wondering what Bl.J. has decided to do. Guess she will know by now. She will do what's best tho I am sure. She is really a sweet kid and seems to have plenty of sound judgement. She doesn't seem like a kid of 15. I am really proud of her.

Boy is it getting cold here! I thought it was going to freeze yesterday but didn't. It warmed up a bit today. It's the mornings that's cold here. I don't mind it much tho. Fact is I like the place more every day.

Sunday night

My Dear Boys -

I havent written you since I got home, so many things happening.

First Mamma was out in the yard and I ~~stayed~~ <sup>stayed</sup> with her ~~evening~~ <sup>evening</sup> & I stayed with her until Wednesday, then I got rested up and guess what I did, went out to stake some tomato plants and cut my foot with the small ax I was using so now I am setting on a

2 while, but oh I hope not for  
long I am so tired all ready  
Mamma was not hurt but  
was frightened and a little  
sore so I stayed until I  
felt she was all right

See I am glad your  
mother gave up that house  
my my the work was hard  
too much for her, & I hope  
she can get a good rest &  
then her trip & she will feel  
like enjoying life

I am glad that Betty &  
is going to Summit I think

it will be best for her.

Ava house is small & will not be hard to keep warm if they don't have any help.

John is still in the desert & that as blue beaver he says I am so glad Brock is.

Ben Chief again & know he enjoys being boss.

That was a good trip to Yellow Stone Park and I know you enjoyed it. I am sorry I did not go on there when I was in Pocatello.

Nancy has just returned  
from Goodman & is full  
of the good time she had.

Guess Betty will be  
starting to school tomorrow  
you should have seen her  
riding the sur board she  
was really good, but it soon  
learned to throw her off. & of  
course he enjoyed that

We are getting some rain  
& cooler weather - we needed  
both, this has been a hot summer  
hope you are both well & happy

My darlings.

Sam I haven't had one  
minute for writing since we  
We landed at Joes Friday morning  
too tired for words. We ate breakfast  
took a bath and went to bed. At  
one o'clock Joe Waked Dick to tell he  
he had been called to make a run  
here leaving there at three and had  
here on return at ten. Of course we  
got up dressed and camp with him.  
We had a nice visit together and  
eat of jam. I'm going back to visit  
with them - some before - & go home.

The drive from the bridge here  
is beautiful and I enjoyed every  
minute of it. First Mountain view  
ever seen and couldn't take my eye  
off of them.

Will and Sam are fine. They certainly  
have a pretty and comfortable place &  
Sam seems to be a very nice person  
and he and Will are happy. I think

We will leave for Martinsburg  
Sat. noon. I met Will and W. Green

We will drive all night and I'll  
help but dread it as I'm to leave my  
part of the driving.

We got good seats all the way  
but how we had to push and wait  
to do it. Some that along baby is making  
about. We changed between trip times  
from Mr. Campbell. I enjoyed it  
all. The crowds late hours and pushing  
for seats but oh I was worn out. I  
want to spend the night in Knoxville  
to rest but couldn't get a room  
anywhere.

They want to take me riding to see  
the town. Will write you a long  
letter to Mamma & we will have plenty  
time to my self.

My Darlings,

Seems I haven't had one minute for writing since arrival. We landed at Joe's Friday morning too tired for words. We ate breakfast, took a bath and went to bed. At one o'clock Joe waked Vickie to tell her he had been called to make a run here leaving there at three and leading her on return at ten. Of course we got up dressed and came with him. We had a nice visit together and lots of fun. I'm going back to visit with them some before I go home.

The drive from Nashville here is beautiful and I enjoyed every minute of it. First mountains I've ever seen and couldn't take my eyes off of them.

Allie and Dan are fine. They certainly have a pretty and comfortable place. Dan seems to be a very nice person and he and Alle are happy I think. We will leave for Mark's next Sat. noon. First Alle and I guess we will drive all night and I can't help but dread it as I'm to do a big part of the driving.

We got hood seats all the way up but how we had to push and wait to do it. Seems that everybody is working about. We changed busses six times from McComb to here. I enjoyed it are the crowds late hours and pushing for seats but I was worn out. I meant to spend the night in Knoxville to rest but couldn't get a room anywhere.

They want to take me riding to see the town. Will write you a long letter tomorrow as I've plenty of time to myself.

Now that you are in Virginia with all  
aren't you glad you agreed to give up work  
and visit a while? We are glad that you did.  
We want you to have the time of your life  
on this trip. As I said before we want you here  
before you return home to settle down again. Come  
when you return from N.Y. and we will visit  
Yokohama before they close for the winter.  
We will go to Salt Lake, San Valley and any  
other place you desire. You must come for we  
want to be able to go home unless we go to Texas  
or from here for winter lay further up in  
all that we give us. Don't let this interfere  
with the trip to N.Y. though. We know you want  
to see both places. If you come here we will  
show you the west just like Al & Norma  
are showing you the East.  
I know I should write you every day but I  
must stop long enough to catch a breath.

My day began at 6:30 a.m. I got up, dressed, made  
my bed, eat and go to work before 8:30. I work  
until 5:30. Eat supper, alone, bathe & I dress, while  
my shoes and go to town to pick up our father  
at eight. We date for night a week. We never  
get home before 10. Some times we stay out until  
3:00 and all depends what we do. We went to  
Lakes Falls (5 miles north) last Thursday. Paul, Ruth  
Ruth & I. We danced to Henry King's orchestra  
until 12:45. I was home in bed at three. We went  
on a picnic to Junction Park Sat. Night. It was  
there with me got home that night. We had 7  
potatoes - Corn or <sup>corn</sup> - tomatoes, Potatoes, Coca-Cola. We  
roasted our knollers there all watermelon. Then  
we return to home. Ruth is Ruth's cousin. She had  
a date too.

Just don't worry about us darling. We will take  
care of our selves and think of you all the time.  
You think of us and make sure there are  
no dull moments in your life.

Write us about your good times darling. But  
don't forget we will be looking for you after  
your visit W. W.

Monday Morning

My darling boys.

I'm still having my worries about not hearing from you. I know it hasn't been so long but it seems like an awful long time to me. Guess tho you just didn't believe I was coming and waited till you heard from you to write. I started to wire you this morning but decided you might think me foolish or silly. I do hope I get a letter real soon. How can I sit and any more here for I'll be gone before they get here. Just be sure and have some waiting for me at Lynchburg.

This is truly a beautiful country - I enjoyed every mile of the trip here. Even the 83 extra miles we made. We changed highways at Williamsport Pa. and after traveling 40 miles found that we took the wrong end and had to go back to Williamsport and start again - On top of that we had a flat away out from any where. We were lucky tho for the fifth car stopped and changed tires for us. We left Lynchburg at eleven thirty Sat. morning and arrived here Sat. four thirty yesterday morning. We found the girls and Del just. Which just can't see Papa. The girls look so much better and she looks better than I've ever seen her. She weighs 135 lbs. and is a typical flapper. Wish you could hear old fool Alvin. Tell about our trip over.

We are going to New York. Will leave here Friday morning. And will have that afternoon and night and Sat morning there. Then we will visit Del's sister in New Jersey. and go back by Washington etc.

Your Mother is having a wonderful trip. And  
when we said it comes to the fact that I owe  
it all to you. Now and because you would  
me to come so bad. You must rescue me  
They want to get through quick and take me  
right away so we stop and write now  
later - I love you forever

Dearest Mother,

Your long letter from Virginia came yesterday. I enjoyed it very much for I know you are very happy there and will be the same the whole trip. Traveling is lots of fun especially when one is visiting friends along the way. I have seen a lot in traveling from one place to another and have enjoyed it very much.

I don't think Ava and Betty Jean should mind if you visit us here. After all they have years ahead of them for travel. There is no better time than the present for you to make this trip. But now that the weather is too cold for either of us to travel by train or bus it may be best that you wait until next summer. Joe & Yellow Stone Park closes the fifteenth of next month. We would want to spend the week-end there when

you come. The latest rumor is we will be here  
this winter. If so and we remain next summer  
you and Bettye Jean ~~too~~ may join us here if you  
still think that's what you want.

We are glad you asked the Lord for what  
you want to have every thing on this trip. If  
you see any thing you want let it be yours.  
If there is any thing you want to do do it.  
Don't let any thing come between you and a good  
time. I know all's ~~ministers~~ <sup>ministers</sup> doing every  
thing they can to show you around.

Give my love to all and thank them  
for what they are doing for you. Some day  
we can make that trip together.

Dearest Mother & Dick,

I am so sorry that my letters did not reach you when you expected them too. Of course it was no fault of mine & I know I wrote at least two letters to Longhorne Lane (H.A.). All jokes aside now you are having a wonderful time, and we know. And how it thick as to know that our Mother is busy from work and being out on a tour of the East Coast with three of the most wonderful girls in the world. We want you to every thing that has ever come into your mind; if it takes six months to do so.

Your letter from Virginia telling me to write in care of Maxine came yesterday. The one from New York telling us to write in care of Alie came to day. You seem to be traveling faster than your mail. I do hope you had several letters waiting for you when you returned. I know what letters mean to you that's why I am going to write often beginning right now even though it will be a short one. Good night sweethearts until to-morrow or next day. Love & kisses

My dearest baby:

How my boy to night? I bet its really cold there to night-for its feeling like winter here to night. I can see you walking around in the snow. But I'm also wondering what effect snow and ice will have on your driving home Xmas. How do you drive in the snow? Isn't it dangerous or do you have some thing on the wheels to keep it from slipping? Please be careful and don't take any chances.

Betty Jean. Came up Sat. night and stayed till this afternoon. We went to town and picked out her coat. Its a new shade of blue and very pretty and nice. The price is \$32.00 but Lena can get it at least which should save a good bit. That seems an awful lot to pay for her a coat but the Cheaper ones are not cheap and looks it. And too I think she's about through growing and you want it a long time. Mamma got her a black spot flower to wear to school and she was about as proud of it as the coat. I paid her \$10.00 and will finish paying her later. The car has about all I could do for it. I'm afraid I'm going to miss my boarding home money.

Sure I did hate for my baby to go home with out a quilt. If it wasn't for taking mamma back with me. But surely I would have gone with her. Do hope we all to go in the fall. I love you I'm wanting to get back home. got back last night and its feeling real nice. I think so I'm hoping she will send me soon. Mamma wants to stay with me and Hobson is a little sick over it. But Lena, for some reason won't want to say she's going to stay. However I will let her come to stay this winter if no longer. I don't know if Hobson. I'll make it possible for an

Not to work on - I can take the best of care of her  
or what. I know Helen. Will do his part and I don't  
but the others I don't know. I'm mighty anxious  
to know what I'm going to do.

Edna took me to Dickson yesterday afternoon  
number hundreds of people ask me about Billings  
while I was on my trip and I was ashamed to  
admit that I had never seen it so I resolved  
to do so. Had no idea it would be so soon.  
Edna, gave Edna, some C. gas stamps and  
gas, gave her some for gas and other things  
that we might need. With us had gone for the  
day for the National Park is too big to see so  
we should see in a short time. Will go some-  
time. How beautiful it! The park is beautiful  
and the town is old and interesting.

Are you sure you don't want me to stand your  
any Candy and nuts before Xmas? I'll bake one  
fruit cake just as soon as the pecans dry  
enough and am I going to fill them with  
Will also have Chickens in the locker so I'll want  
to have them. I can hardly wait and how  
much they body will be feeling good. Says  
you don't know how bad I want to have both  
of both of you at once. Oh we are going to have  
fun isn't we? We must.

I enjoyed Mrs. Cadiz letters a lot, so the Walls have  
lost interest in you. I'm sorry for this. You might  
see to you. I've owed Barbara a letter since before  
last Christmas. I've waited so long I just forgot to  
write it. Do they have any more of these thought  
books and if we get what we should from my three for  
you. I'll get it soon and send them - especially my  
new one. I think you may. I'll be sure to  
send you. Be careful of your health and don't let  
anything happen to you. You want to be happy. Love

Had no idea it would be so soon. Slim gave Edna some C. gas stamps and Tal gave her money for gas and other things that we might need. Wish we had gone for the day for the National Park is too big to see as one should in a short time. Will go some time. How about it? The park is beautiful and the town is old and interesting.

Are you sure you don't want me to send you any candy and nuts before Xmas? I'll bake our fruit cakes just a soon as the pecans dry enough and am I going to fill them full. Will also have chickens in the locker so we won't have to dress them. I can hardly wait and how I hope everybody will be feeling good. Boys you can't know how bad I want to have hold of both of you at once. Oh, we are going to [unreadable] aren't we? We must.

I enjoyed Mrs. Cady's letters a lot. So the Wall's have lost interest in you. I'm sorry for they were mighty nice to you. I've owed Barbara a letter since before I left Magnolia. I've waited so long I don't know how to answer it. Do they have any nuts over there. Thought if they don't and if we get what we should from my trees we could

pick out some and send them – especially the Cady's. What you think. No negroes. I'll be seeing you again soon. Be careful darlings and don't let anything happen to you for we want to be happy Xmas. Kisses, Mother.

Dearest Bettye Jean,

Your letter came yesterday. We enjoyed it very much. You left us in doubt though for we don't know what grade was given or what others thought of it. I couldn't write an article like that in a million years. Speaking of school work do you make the same grades as you did last year. Something tells me you are getting more like your brothers every day, that is all out for a good time and let school work take care of self. We want you to have a good time dear but at the same time we want you to make good in school.

Ava wrote that she brought home an \$11.00 coat for mother. Did she keep it if so what are the payments. Let us know and we can send payment when sending note for car.

How are the mothers and the twin beds. I do hope they can be happy and satisfied all of the time. Be sure you do what you can to help

My dearest boy.

Your telegram came this morning and liked to have scared me to death. Sue said "mam ma don't you like to get money?" I told her I did. She said well why did you talk ugly about it? You said I don't like them. I'm afraid of it and all those things. I sure did hate to ask you for money now for I know you can easily use as you have left after paying your note. I'm going to Magrobia tomorrow to pay the note and I'm going to ask Steve to set the note up a month and I feel sure he will do it for me. That will mean that you won't have to make a payment in Dec. and will have it for your furlough.

Guess you have heard about the new law on dependent allotments. All now come dependents will get allotments and more than at first. So first as soon as you can make applications and get mine started again. and don't forget to include Betty Jean. Wa. will get \$50. Sue \$30 and Robert Brock \$20. If Cousin B. J. and I want get that much but few dollars more than we got before. My but I'm glad we can get it again. I feel sure we can get along nicely after we get lined up and every thing started. I'm telling you being broke is an awful feeling after being able to write Chuck for three years.

Mamma and I got our feds up yesterday. Hobson bought them for us and my tongue was

She seems to be perfectly satisfied and I hope we  
can keep her that way.

Bob's letter came today telling of you three  
keep hunting. Listen get every box of shells you  
can to bring home with you. Hobson is having a  
time getting what he wants and you know how he  
loves to hunt. A number of friends have given him  
a lot so he says he can get by but would like  
more. He and several men are duck hunting on the  
Miss River. The bag limit is 10 ducks and 3 geese  
a day and 20 ducks and six geese for the hunt. I  
hope he gets his bag limit. Will have things ready to  
go hunting with you two. I can hardly wait for the  
time to pass. If you are moved I do hope you come  
much nearer home so we can see each other  
more often. Guess you don't have any idea where  
it will be - do you?

Betty Jean is still hoping you going to the States.  
She didn't do as well in school as she should and  
is sure it's due to too much play. Expect she's  
going to have to cut out some of it and do more  
studying.

Uncle Ed has been awfully cross for last few days.  
Aunt took her to Lucerne yesterday and he found her in  
right bad condition. She has piles on her kidneys  
and kidney stones. Said he had never had one so young  
with kidney stones. Hope she will be feeling better before  
she adds gets home. If she has a attack of some  
kind while you were at home. I'll write again  
soon. I love you both and hope to see you soon.

My Dear Boys,

I haven't forgotten you but it seems so I know, so I am sending this note until I can write a real letter.

Ugh, it is so cold. Almost freezing, but came after such nice warm weather.

Guess you are getting snow and below freezing. Hope you don't get snow bound, for instance about Xmas time.

I am going to church twice a day & that's keeping me going.

Will write you soon. Hope you are well and happy.

From Aunt Dora.

My darlings in the town and sea -  
You about the machine for a  
while! I'm glad that you  
didn't take it over there like some  
and so - anyway it was much nicer  
while you were here - there isn't room  
to walk around now.

Maggie got her call for 30 thanks  
giving day and were so blue - then  
it was changed to the day after, and  
we were happy! Now she is there and  
will have a couple of weeks in S.A. and  
then to school - Look her a letter -  
4530 - 17<sup>th</sup> N.E. - The New House Seattle Wash  
she will be rather homesick while I  
suppose, but will finish in 18 months!  
She had a good and interesting job while  
here and got in a lot of things -  
dancing and dancing she is doing  
a lot of work now.

Kathryn is going to work for me  
during Christmas vacation. At present is  
writing a theme on "Fair Rosalind" - You  
two want to add any comments to it.

When I neglect you I keep thinking  
well they have a couple of nice girls  
and the car and conditions are better  
than the last time I was writing to  
you - Sent some cookies and making  
material to your old island yesterday

gratified at once upon the promotions -  
but I wish to you Bob - hope it  
comes soon - wish I had a supply  
out over here to supply the things  
we need - Our work has doubled  
since school began, the old station  
wagon is on the go every day -

I'll cross my fingers for a certain  
crew chief wish to break the record -  
am so happy your plane has had  
such good care - speaks well for my  
boy.

Tell you soon - Jean St Clair he was  
crew chief and received his plane just  
before going down under - was mighty  
busy for a while there. Had a rather  
blue letter from him this week -  
Norman is fine - busy - very - His  
address 42d Bomb Sq (H) 11th Bomb Gp (H)  
APO 240 - Both together yet.

Harold and Alon Kemmet (United Air line  
Pilot) from my home were in the other  
night. Harold has a hot plate for dishes  
and is doing light house keeping at Hickam.  
He has nearly 4 years which will mean  
a trip home unless he goes down under.  
Just a maybe. Didn't he get glued to  
the spot!

Since weather is a military secret  
I can't tell you Harold still works in  
the garden and is it beautiful. He did  
not have to water to night because it was

not necessary if you may have your  
weather I'll take this

I do hope Mother will not be  
disappointed Christmas she has  
waited long enough. Marjory will have  
4 Christmases away from home.

No, I don't think you will see  
another 4 years in prison tho we  
are beginning to see the results of  
pretty tough times down under  
you know what my work was when  
you were here - just play. The  
schools are a full tilt on  
helping me.

Well, you all three had better call  
at Oahu. and what's more I'm not  
sure that I want to see you bad  
enough to have you go down there  
again. Believe I'd rather wait and see  
you all on your honey moons with  
out any washing machine Charlie -

Your old island is begging for  
reading material so I'm musting  
more in the A.M. - have better  
transportation again -

Slide down hill once for me but  
that will be enough - I'd rather lie on  
the lawn and look at the moon  
over head. Anyway we all love you all  
and do enjoy letters when you have  
time. and love to the folks at home

My Darlings in the snow and ice,

How about a little Paradise for a while!! Aren't you glad that you didn't hate it over here like some did and do—anyway, it was much nicer while you were here—there isn't room to walk around now.

Marjorie got her call for 1:30 Thanksgiving day and were we blue — then it was changed to the day after and were we happy! Now she is there and will have a couple of weeks in L.A. and then to school — drop her a letter — 4530 17<sup>th</sup> NE, % Phi Mu House, Seattle, Washington. She will be rather homesick a while I suppose, but will finish in 18 months. She held a good and interesting job while here and got in a lot of Flying Squadron dancing and dates so she is ready for a lot of work now.

Katheryn is going to work for me during Christmas vacation. At present is writing a theme on "Fair Rosalind" — you two want to add and comments to it!

When I neglect you I keep thinking well they have a couple of nice girls and the car and conditions are better than the last time I was writing you — sent some cookies and reading material to your old island yesterday.

Congratulations upon the promotions — and best wishes to you Bob — hope it comes soon. Wish I had a supply Sgt over here to supply the things we need. Our work has doubled since school began, the old station wagon is on the go every day.

I'll cross my fingers for a certain crew chief's wish to break the record. Am so happy your plane has had such good care — speaks well for my boy.

I do hope mother will not be disappointed Christmas she has waited long enough. Majorie will have 4 Christmases away from home.

No, I don't think you will see another 4 years in service tho we are beginning to see the results of pretty tough times down under. You know what my work was when you were here – just play. The schools are going full tilt on helping me.

Well, you all three had better call at Oahu and what's more I'm not sure that I want to see you bad enough to go down under again. Believe I'd rather wait and see you all on your honeymoons without any washing machine Charlie.

Still - Mom

\*This letter is not dated, but refers to Marjorie getting called to go somewhere the day after Thanksgiving, and she has already left. In addition, the letter tells that her daughter Katheryn is going to work for her during Christmas vacation. Since she greets them as her darlings in the snow and ice, they must be in Salt Lake City or Pocatello, ID for those are their only duty stations that would be frigid in early December.
